

# GOVERNMENT DEGREE COLLEGE RAYACHOTY, ANNAMAYYA DISTRICT, A.P. 516269

(Accredited with C grade by NAAC)

10

## RESEARCH POLICY

The institution makes better environment for innovation skills, scientific attitude among students and faculty members in different ways. An academic environment that fosters critical thinking acts as a source of research activity in an under-graduate educational institution. Research is the foundation of knowledge that brings new energy, builds state of the art facilities, promotes research publications, develops collaborations and becomes part of active community that shares the mission objectives. Taking these into considerations, Government Degree College, Rayachoty has established its Research Policy, aiming to help teachers engage in research work. The execution of the college's research policy falls under the purview of the Research Committee.

### Objectives:

1. To create and promote a culture of research among the faculty and students
2. To identify research areas and specify research topics of academic, practical and socially relevant significance
3. To organize seminars/conferences/workshops on research topics and training programmes in research methodology.
4. To ensure quality, integrity and ethics in research.
5. To facilitate the publication of reports submitted by the research scholars
6. To bring about an annual/periodic compendium of abstracts/papers presented by the staff and students in various seminars / conferences / workshops.
7. To serve as a facilitator providing professional guidance, technical support

and recommendation for financial assistance

**The research cell will undertake specific roles and functions in line with this policy, including:**

- Establish suitable infrastructure to support research projects.
- Encourage and guide students in research projects.
- Organize workshops, training programs, and sensitization programs to promote a research culture on campus.
- Encourage faculty to undertake research by collaborating with other research organizations and industries.
- Facilitate interdepartmental and interdisciplinary research projects.
- Identify faculty members who can lead research and encourage them to undertake projects, studies, and surveys.
- Depute faculty members to various workshops, symposia, seminars, and conferences in their respective fields and in areas of contemporary importance.
- Provide financial assistance for the publication of research papers and research findings.
- Establish linkages with industries and business organizations to identify potential areas for research, surveys, and other basic research inquiries.
- Encourage faculty members to obtain research projects from national funding agencies.
- Encourage the publication of research articles by faculty in reputed/UGC-approved journals.

- Create suitable procedures for giving due recognition for guiding research.
- Organize various workshops to develop appropriate research skills among faculty members.
- By implementing these steps, the college can effectively encourage and promote a robust research culture, benefiting both faculty and students.
