Green campus policy

Policy Document on Green Campus/Plastic-Free Campus

Government Degree College, Rayachoti

Vision

To create a sustainable and eco-friendly campus that promotes environmental awareness, reduces waste, and encourages the responsible use of resources.

Mission

To implement policies and practices that support a green and plastic-free campus, ensuring the well-being of the community and the environment.

Objectives

- Promote environmental sustainability through various initiatives and practices.
- Reduce and eventually eliminate the use of single-use plastics on campus.
- Encourage recycling and waste management practices among students and staff.
- Enhance the green cover and biodiversity of the campus.
- Foster a culture of environmental responsibility and awareness.

Green Campus Policy

1. Waste Management

Segregation: Install separate bins for biodegradable, non-biodegradable, and recyclable waste.

Recycling: Partner with local recycling agencies to ensure proper disposal of recyclable materials.

Composting: Set up composting units for organic waste generated on campus.

2. Energy Conservation:

Energy-efficient Lighting: Replace traditional lighting with LED lights.

Energy Audits: Conduct regular energy audits to identify and rectify wastage.

Renewable Energy: Promote the use of solar energy and other renewable sources.

3. Water Management

Rainwater Harvesting: Implement rainwater harvesting systems to conserve water.

Water Audits: Conduct regular water audits to monitor and reduce consumption.

Awareness Campaigns: Educate the campus community about water conservation techniques.

4. Green Cover Enhancement

Tree Plantation Drives: Organize regular tree plantation drives to increase green cover.

Maintenance: Ensure the regular maintenance of gardens and green spaces.

Biodiversity: Promote the cultivation of native plant species to enhance biodiversity.

5. Eco-friendly Infrastructure

Green Buildings: Promote the construction of eco-friendly buildings with sustainable materials.

Eco-friendly Transportation: Encourage the use of bicycles and electric vehicles on campus.

Paperless Office: Implement digital documentation practices to reduce paper usage.

Plastic-Free Campus Policy

1. Banning Single-use Plastics

Policy Implementation: Enforce a strict ban on single-use plastics within the campus.

Alternatives: Promote the use of eco-friendly alternatives such as cloth bags, metal bottles, and reusable containers.

2. Awareness and Education

Workshops and Seminars: Conduct workshops and seminars to educate the campus community about the harmful effects of plastic and the benefits of going plastic-free.

Campaigns: Run awareness campaigns highlighting the importance of a plastic-free environment.

3. Monitoring and Evaluation

Inspections: Conduct regular inspections to ensure compliance with the plastic-free policy.

Feedback Mechanism: Set up a feedback mechanism to address issues and suggestions related to the plastic-free initiative.

Reporting: Prepare annual reports on the progress and impact of the plastic-free policy.

Implementation and Responsibility

Green Campus Committee: Establish a Green Campus Committee responsible for planning, implementing, and monitoring green and plastic-free initiatives.

Student Involvement: Encourage student participation through eco-clubs and volunteer programs.

Collaboration: Collaborate with local environmental organizations and agencies for guidance and support.

Review and Continuous Improvement

Periodic Review: Conduct periodic reviews of the policy to assess its effectiveness and make necessary adjustments.

Continuous Improvement: Strive for continuous improvement by adopting new and innovative practices for sustainability.

ECO – FRIENDLY GANESHA

The Eco-Club and NSS Units & WEC of Government Degree College, Rayachoti celebrate the Eco-friendly Ganesha program every year. This program focuses on promoting environmentally sustainable celebration of the Hindu festival of Ganesh Chaturthi. It encourages the use of biodegradable materials like clay and natural colors for making Ganesha idols, reducing the pollution caused by traditional plaster-of-paris idols. These eco-friendly idols can be immersed in water without harming aquatic life. Such initiatives help raise awareness about the importance of preserving the environment while practicing religious traditions. For this awareness Eco-Club & NSS Units & WEC conduct Competitions of making of Vinayaka idol with clay. After making idol perform puja to that idols only and distribute prizes to first, second and third winners.

Objectives

- To minimize the negative impact on the environment caused by the traditional practice of immersing idols made of non-biodegradable materials.
- To encourage the use of eco-friendly materials for making Vinayaka idols. To preventing pollution of water during the immersion process.
- To promote awareness about responsible celebrations to create responsibility towards the environment.

DEPARTMENT OF LIBRARY: GREEN BOARD ACTIVITY

The Green Board Activity is an educational program and best practice started by Department of Library to promote environmental consciousness among students and raise awareness among students about critical issues like environmental pollution and global warming. Through the making posters and displays at entrance of the library, students will actively engage in learning about these topics. This program aims to instill a sense of responsibility towards the environment and encourage sustainable practices.

The department of Library is conducting a Green Board Activity started from 2022-2023 academic year. The concept of Environment pollution and global warming is propagating throughout the year by collection of information regarding environment, poster making and displayed on the green board. Students are encouraged to collect the information, pictures, quotations, drawings; paintings are displayed on the green board. The library provides a display board on which posters are displayed by the students themselves.

OBJECTIVES:

1. To provide students with a concept of environmental pollution and global warming Causes, effects and solutions.
2. To encourage students to express their ideas and knowledge creatively through making of posters.
3. To encourage their creative skills in painting, drawing, expressing, and collecting of ideas.
4. To provide a platform to express their ideas for environmental changes.
5. To instill a sense of social responsibility towards the environment and sustainable practices.

OUTCOMES of the Program:

1. Increased awareness and developed a deeper understanding of environmental pollution and global warming.
2. Improved knowledge on concept of environment and global warming.
3. Developed knowledge on innovative skills like drawing, painting and collecting the information.
4. Enhanced their critically thinking capability on causes and solution of the concept.
5. Active participation of the students is observed.
