

LONG INTERNSHIP ACTIVITY REPORT

In accordance with the memorandum of understanding (MoU) between Archana Nursing Home, Rayachoty, and GDC Rayachoty, students from GDC Rayachoty successfully completed an extensive internship at Archana Nursing Home. This collaboration aimed to provide practical training and exposure to the healthcare environment, enhancing the students' professional development and preparing them for future careers in healthcare.

During the internship period, which spanned four months, students actively participated in various aspects of healthcare delivery under the guidance of experienced healthcare professionals at Archana Nursing Home. They gained hands-on experience in patient care, medical procedures, administrative tasks, and the overall operations of a healthcare facility.

The internship provided invaluable opportunities for students to apply theoretical knowledge gained through their academic coursework in a real-world setting. They were able to observe and contribute to patient care activities, learn about medical ethics and professionalism, and develop essential skills such as communication, teamwork, and critical thinking.

Feedback from both the students and the staff at Archana Nursing Home has been positive, highlighting the mutual benefits of such collaborative initiatives. The students expressed gratitude for the opportunity to learn from experienced practitioners and gain practical insights that will guide their future careers.

Overall, the internship at Archana Nursing Home through the MoU with GDC Rayachoty has been a fulfilling and enriching experience for the students, reinforcing the importance of practical training in complementing academic education. This initiative underscores the commitment of both institutions to fostering the ultimate development of future healthcare professionals.
