Introduction: The term “Green” means eco-friendly or not damaging the environment. This can acronymically be called as “Global Readiness in Ensuring Ecological Neutrality”(GREEN). Green accounting can be defined as systematic identification, quantification, recording, reporting & analysis of components of ecological diversity and expressing the same in financial or social terms. “Green Auditing”, an umbrella term, is known by another name “Environmental Auditing”. There is a provision of green audit in college campus. A committee has been formed to monitor the proper conservation and plantation of the plants in the campus. As per the suggestions made by IQAC, Botany department is given the responsibility to do green audit with cooperation of the environmental experts of the state. A report on green audit has been prepared by department of Botany Govt. Degree College, Rayachoty. This college was established in 1978 and accredited with Grade C by NAAC. Total area of college main campus is 10.01 acres, of which 31 percent is covered by herbs, shrubs and trees, including valuable medicinal flora. The plants have been systematically identified by the green audit committee. There are more than 350 plant species were audited. The green audit report has been discussed with environmental experts for suggestions to increase greenery in campus. Extra efforts have been taken by the college to create environment consciousness amongst students. One major step in this regard is the extensive plantation program organized by NSS, NCC, garden committee and students of Botany department. Plantation is encouraged by Principal and faculties of all departments to increase greenery and reduce Carbon emission effects. Renovation of the garden at the entrance was done with financial support from special funds of the college. Existing gardens are also maintained by the Department of Botany. Extension programs also organized to create

Environment awareness and conservation of biodiversity amongst the students and public.

Activities organized to create greenery and its conservation at college campus is as follows

- Plantation of diversified species(Botanical Garden)
- Uses of medicinal plants
- Identification of plant species

Plantation of diversified species:(Botanical Garden)

To create green cover, eco-friendly atmosphere, pure oxygen at the college campus, plantation program organized every year with involving all students, Principal and all departments faculty members. In this session Vana Mahotsav program was organized and about 100 Ornamental, avenue, medicinal plant with rare and exotic beautiful trees was planted in Botanical Garden and other parts of college campus. To keep the greeneries in the campus, we regularly maintain the gardens which are looked after by paid staff under the guidance of garden committee members. Moreover, every year we try to plant new trees. Seasonal flower gardens also a unique feature of this college.

Uses of medicinal plants:

There are many medicinal plants are planted in college Botanical Garden. The plants have medicinal value but students don't have knowledge how to use and they can't identify the particular plants, so therefore faculty members department help them to identify with scientific name and give information about medicinal uses of the Plants.

Identification of Plant species:

There are so many plant species are present at college campus. The faculty members of the botany department audited and identified of various plants species with the help of flora.

Policy Document on Green Campus & Plastic-Free Campus
Government Degree College, Rayachoti

Vision

To create a sustainable and eco-friendly campus that promotes environmental awareness, reduces waste, and encourages the responsible use of resources.

Mission

To implement policies and practices that support a green and plastic-free campus, ensuring the well-being of the community and the environment.

Objectives

- To promote environmental sustainability through various initiatives and practices.
- To Reduce and eventually eliminate the use of single-use plastics on campus.
- To encourage recycling and waste management practices among students and staff.
- To enhance the green cover and biodiversity of the campus.
- To Foster a culture of environmental responsibility and awareness.

Green Campus Policy

1. Waste Management

Segregation: To Install separate bins for biodegradable, non-biodegradable, and recyclable waste.

Recycling: To Partner with local recycling agencies to ensure proper disposal of recyclable materials.

Recycling: To Partner with local recycling agencies to ensure proper disposal of recyclable materials.

Composting: To Set up composting units for organic waste generated on campus.

2. Energy Conservation:

Energy-efficient Lighting: To Replace traditional lighting with LED lights.

Energy Audits: To conduct regular energy audits to identify and rectify wastage.

Renewable Energy: To Promote the use of solar energy and other Renewable sources.

3. Water Management

Rainwater Harvesting: To Implement rainwater harvesting systems to conserve water.

Water Audits: To conduct regular water audits to monitor and reduce consumption.

Awareness Campaigns: To Educate the campus community about water conservation techniques.

4. Green Cover Enhancement

Tree Plantation Drives: To organize regular tree plantation drives to increase green cover.

Maintenance: To Ensure the regular maintenance of gardens and green spaces.

Biodiversity: To Promote the cultivation of native plant species to Enhance biodiversity.

5. Eco-friendly Infrastructure

Green Buildings: To Promote the construction of eco-friendly buildings with sustainable materials.

Eco-friendly Transportation: To Encourage the use of bicycles and electric vehicles on campus.

Paperless Office: To implement digital documentation practices to reduce paper usage.

Plastic-Free Campus Policy

1. Banning Single-use Plastics

Policy Implementation: To Enforce a strict ban on single-use plastics within the campus.

Alternatives: To promote the use of eco-friendly alternatives such as cloth bags, metal bottles, and reusable containers.

2. Awareness and Education

Workshops and Seminars: To Conduct workshops and seminars to educate the campus community about the harmful effects of plastic and the benefits of going plastic-free.

Campaigns: To conduct awareness campaigns highlighting the importance of a plastic-free environment.

3. Monitoring and Evaluation

Inspections: To Conduct regular inspections to ensure compliance With the plastic-free policy.

Feedback Mechanism: To set up a feedback mechanism to address issues and suggestions related to the plastic-free initiative.

Reporting: To Prepare annual reports on the progress and impact of The plastic-free policy.

Implementation and Responsibility

Green Campus Committee: To Establish a Green Campus Committee responsible for planning, implementing, and monitoring green and plastic-free initiatives.

Student Involvement: To Encourage student participation through eco-clubs and volunteer programs.

Collaboration: To Collaborate with local environmental organizations and agencies for guidance and support.

Review and Continuous Improvement

Periodic Review: To Conduct periodic reviews of the policy to assess its effectiveness and make necessary adjustments.

Continuous Improvement: To Strive for continuous improvement by adopting new and innovative practices for sustainability.

GOVERNMENT DEGREE COLLEGE, RAYACHOTI

Date: 12-02-2023

Circular

Subject: Inauguration of Solar Power Panel Installation at Government Degree College, Rayachoti

This is to inform all faculty, staff, and students that an inauguration ceremony for the newly installed 6 KVA capacity solar power panel, a generous contribution under the Corporate Social Responsibility (CSR) initiatives of ICICI Foundation for Rural Livelihood, will be held on 13th February 2023.

The solar power panel, installed on the college roof, represents an investment of approximately 5 lakh rupees and aims to promote sustainability and reduce the college's dependence on conventional electricity sources. This initiative is expected to decrease our electricity bills by around 40%, aligning with our commitment to environmental conservation.

The inauguration ceremony will be graced by Mrs. Rajeshwari, Regional Manager of ICICI Foundation, and our Principal, Dr. Harsha Latha Pankaj. All faculty, staff, and students are requested to attend the event and contribute to making it a success.

Details of the Event:

Date: 13-02-2023

Time: 10 am

Venue: College Premises, Government Degree College, Rayachoti

We look forward to your active participation in this significant milestone for our college.

SOLAR POWER PANNEL INSTALLATION REPORT

Detailed Report on ICICI Foundation's CSR Initiatives at Government Degree College, Rayachoti

Under its Corporate Social Responsibility (CSR) initiatives, ICICI Foundation for Rural Livelihood has made significant contributions to Government Degree College, Rayachoti, aimed at enhancing sustainability and addressing key challenges faced by the institution.

One of the flagship initiatives undertaken by ICICI Foundation is the installation of a 6 KVA capacity solar power panel on the college roof, representing an investment of approximately 5 lakh rupees. Mrs. Rajeshwari, the Regional Manager of ICICI Foundation, highlighted the importance of this solar panel in reducing the college's dependence on conventional electricity sources and promoting eco-friendly practices. College Principal, Dr. Harsha Latha Pankaj, expressed optimism about the impact of this initiative, anticipating a significant reduction of around 40% in the college's electricity bills. This not only reflects a commitment to sustainable energy solutions but also aligns with broader environmental conservation goals.

These initiatives underscore ICICI Foundation's commitment to promoting sustainable development and enhancing the quality of education and infrastructure in rural areas. The collaborative efforts between ICICI Foundation, college management, and faculty members exemplify a shared vision towards creating a more resilient and environmentally conscious educational environment at Government Degree College, Rayachoti

date	Activity Conducted
20-07-2019	College Campus Cleaning Programme
04-09-2019	College Campus Cleaning programme
13-11-2019	College Campus Cleaning Programme
08-02-2020	College Campus Cleaning Programme

College Campus Cleaning Programme:

Date-20-07-2019

In view of regular activity college campus was cleaned with the help of NSS Volunteers. All NSS Volunteers were participated in this Programme cleaned the bushes, removed the debris, cleaned the internal roads etc. All staff members participated in this Programme. After this Programme snacks were distributed to all the Volunteers who participated in this Programme.

The college Campus Cleaning Programme on Date-04-09-2019

All NSS Volunteers participated in the Campus Cleaning process. In this Programme all debris of the campus was cleaned bushes were removed and road formation also done. All Staff members were participated. After the Programme snacks were provided to the NSS Volunteers

College Campus Cleaning Programme: date-03-11-2019.

In view of regular activity college campus was cleaned with the help of NSS Volunteers. All NSS Volunteers were participated in this Programme cleaned the bushes, removed the debris, cleaned the internal roads etc. All staff members participated in this Programme. After this Programme snacks were distributed to all the Volunteers who participated in this Programme.

College Campus Cleaning & Tree Plantation Programme: Date-08-02-2020.

In view of regular activity college campus was cleaned with the help of NSS Volunteers. All NSS Volunteers were participated in this Programme cleaned the bushes, removed the debris, cleaned the internal roads etc. All staff members participated in this Programme. After this Programme snacks were distributed to all the Volunteers who participated in this Programme.

Our Honorable Commissioner sir Dr.Pola Bhaskar visited at 23.12.2021. GDC Rayachoti College. The college principal Dr. Harsha Latha Pankaj and both teaching and non-teaching staff and students are actively participated tree plantation programme.

డిగ్రీ కళాశాలను తనిఖీ చేసిన ఉన్నత విద్యా కమిషనర్

రాయచోటి, డిసెంబర్ 24 (ప్రభ న్యూస్): జిల్లా పర్యటనలో భాగంగా శుక్రవారం రాయచోటికి చేరుకున్న ప్రభుత్వ ఉన్నత విద్య కమిషనర్ పోలా భాస్కర్ రాయచోటిలోని ప్రభుత్వ డిగ్రీ కళాశాలలను తనిఖీ చేశారు. అందులో భాగంగా శుక్రవారం ఉదయం 11 గంటలకు ప్రభుత్వ డిగ్రీ కళాశాలకు చేరు కున్న ఉన్నత విద్యా

మొక్కలు నాటుతున్న కమిషనర్ పోలా భాస్కర్

కమిషనర్ డిగ్రీ కళాశాలను సందర్శించి ఆన్లైన్ అడ్మిషన్లు, ఉన్నత విద్యలో అధ్యాపకులు, విద్యార్థుల పనితీరు క్రమబద్ధీకరణకు ఏర్పాటు చేసిన ఓటీఎల్పీ యాప్లో అధ్యాపకులు పనితీరును పర్యవేక్షణ చేయడం జరిగింది. అనంతరం కళాశాల ప్రాంగణంలో మొక్కలు నాటి మొక్కలకు నీరు పోశారు. అంతకు ముందు ఉన్నత విద్య కమిషనర్కు డిగ్రీ కళాశాలలో ఎన్సీసీ విద్యార్థులు ఘనంగా స్వాగతం పలికారు. ఆయన వెంట డిగ్రీ కళాశాల ప్రిన్సిపల్ డా.హర్షలత, వైస్ ప్రిన్సిపాల్ డా.మునియనాయక్, అధ్యాపకులు, సిబ్బంది, ప్రైవేట్ కళాశాలల యాజమాన్యం ఎన్సీసీ విద్యార్థులు పాల్గొన్నారు.

**INSTITUTIONAL
BEST PRACTICES-II**

POLLUTION AND PLASTIC-FREE CAMPUS

POLLUTION AND PLASTIC-FREE CAMPUS POLICY

BEST PRACTICE-II

Title of the practices: **Pollution and Plastic-Free Campus.**

Objective:

The primary objective of the "Pollution and Plastic-Free Campus" initiative is to make students environmentally conscious and to maintain clean, green, and pollution-free campuses.

Context:

The initiative was developed in response to the lack of environmental awareness among students and the presence of plastic waste and pollution on campus. It aims to address these issues through a series of targeted actions and awareness programs.

Practice:

The practice involves various strategies, including the formation of student committees comprising NSS and NCC units to oversee campus cleanliness and sustainability. Garbage pits are dug for the disposal of dry leaves, paper, and other degradable materials, promoting composting. The initiative also includes a ban on polythene use, recycling of paper, distribution of jute bags, and frequent plantation drives in collaboration with the Forest Department. Saplings are presented as bouquets in official functions, and Tuesdays are observed as vehicle-free days, with Saturdays dedicated to clean and green activities. Additionally, the initiative encourages the use of bicycles and electrical vehicles on campus to reduce carbon emissions and promote sustainable transportation practices.

Evidence of Success:

The initiative has seen several successes, including cleaner and greener campuses, the formation of student committees for sapling maintenance, and the development of new gardens sponsored by departments. The practice has facilitated the speedy and safe disposal of garbage, along with conducting awareness programs on environmental protection. Additionally, the initiative has received sponsorship for saplings from the Forest Department and local nurseries, and college-generated compost is being utilized effectively.

Problems Encountered:

Logistical issues were encountered in coordinating student committees and volunteer activities, requiring careful planning and organization to ensure effective execution. Additionally, there was initial resistance to change from traditional practices, especially regarding the use of polythene. Overcoming this resistance involved conducting awareness campaigns and education programs to promote the benefits of eco-friendly alternatives.

Another challenge was ensuring continuous participation and engagement of students and staff in the initiative. Sustaining interest and motivation over time required ongoing efforts to

highlight the importance of environmental conservation and the impact of individual actions.

Resources Required:

To address these challenges, various resources were required. The active involvement of student committees and volunteers was essential for the initiative's success, as they played a crucial role in implementing and maintaining the practices. Access to garbage pits and composting facilities was necessary for proper waste management. Procurement and distribution of eco-friendly alternatives to plastic also required resources. Support from the Forest Department and local nurseries was vital for organizing plantation drives and sourcing saplings. Additionally, educational and awareness materials were necessary to inform and engage the campus community in environmental conservation efforts.

S.NO	Academic Year	Name of the Activity
1	2018-2019	PLANTATION BY STAFF AND NCC STUDENTS
2	2019-2020	CLEAN AND GREEN CAMPUS BY ALL GROUPS OF STUDENTS
3	2020-2021	POLLUTION FREE CAMPUS IN COVID PERIOD SANITATION IN COLLEGE CAMPUS.
4	2021-2022	1.POLLUTION FREE CAMPUS USED BY BICYCLES AND ECO-SCOOTY. 2. AND OUR HONOROUBLE COMMISSIONER SIR SRI.POLA BHASKAR GARU PLANTED THE PLANTS IN GREEN CAMPUS.
5	2022-2023	1.AWARNESS ON BAN ON PLASTIC USAGE, DISTRIBUTION OF JUTE BAGS TO STUDENTS. 2.ECO-CLUB-ECO-FRINDLY VINAYAKA IDOL WITH CLAY,AND 21 TYPES OF MEDICINAL VALUES OF PLANTS. 3.AWARNESS PROGRAMME ON OZONE DAY AND POSTER PRESENTATION.

2018-2019

**POLLUTION AND PLASTIC FREE CAMPUS
PLANTATION BY STAFF AND STUDENTS**

NSS Students and staff are digging holes and planting the plants The NSS and NCC's participation in the plantation drive has significantly contributed to environmental conservation efforts. Through their dedication, the NSS and NCC cadets played an active role in educating the public on how trees contribute to pollution control. Awareness programs included: Lectures and seminars on environmental issues and the benefits of afforestation Distribution of informational pamphlets and digital resources about sustainable living practices.usands of trees have been planted, which will help reduce pollution and improve air quality in the region.

This initiative not only strengthened the role of youth in environmental sustainability but also set an example for future drives. Continuing efforts are needed to monitor the saplings and engage more citizens in similar activities to build a pollution-free world.

All the NCC Students are also ready to plant sapling with their NCC Officer.

A scene where the all NCC students are plant sapling for pollution free of Green campus. All students are participated enthusiastically in this program and planted saplings.

The "Pollution-Free Campus Plantation" initiative was a resounding success, thanks to the collective efforts of the entire campus community. The initiative not only contributed to a greener campus but also instilled a sense of environmental stewardship among participants. Moving forward, continuous efforts will be made to maintain and expand the green cover, ensuring that our campus remains a pollution-free zone.

GDC.RAYACHOTY principal and NSS and NCC Co-ordinators and Teaching staff are participated. No.of Students are participated:35.

THANK YOU.

2019-2020

**POLLUTION AND PLASTIC FREE CAMPUS
CLEAN AND GREEN CAMPUS**

NSS students and staff are all together to sort out the garbages in the campus, and also pull the weeds.

A pollution-free campus is achievable through collective efforts and a commitment to sustainability. By implementing the above strategies, educational institutions can foster an eco-friendly environment that not only reduces pollution but also enhances the quality of life for everyone on campus. In the long term, these efforts will contribute to global goals of reducing environmental impact and promoting a sustainable future.

The importance of a pollution-free campus cannot be overstated in today's world. With the rising concerns of environmental degradation and climate change, every institution must aim to reduce its ecological footprint to global goals of reducing environmental impact and promoting a sustainable future.

Creating a pollution-free campus is a significant goal for any educational institution. It not only promotes a healthier environment but also fosters a culture of sustainability and responsibility among students and staff. Here's a guide to help develop a pollution-free campus.

- **Comprehensive Recycling Programs:** Implement a robust recycling program, ensuring that bins for paper, plastics, metals, and compost are available throughout the campus.
- **Reduce Single-Use Plastics:** Ban or reduce the use of single-use plastics by promoting reusable bottles, bags, and utensils. Provide alternatives in campus cafeterias and vending machines.
- **Waste Audits:** Conduct regular waste audits to identify areas where waste can be reduced. By implementing these strategies, a campus can significantly reduce its pollution footprint, create a heGreen Spaces
- **Tree Plantation Drives:** Organize regular tree plantation campaigns to enhance green cover, which can help absorb carbon dioxide and reduce air pollution.

- **Gardens and Green Zones: Develop community gardens and maintain green zones where students can relax and enjoy nature.**

althier environment for all, and set an example of sustainability for other institutions to follow.

**Finally they made a pollution free Green campus.
GDC.RAYACHOTY principal,and staff,and also all groups of students are participated in this programe.
No.of students are participated:40.**

THANK YOU

(Accredited with C grade by NAAC)

2020-2021

POLLUTION AND PLASTIC FREE CAMPUS

COVID-19 PERIOD

SANITATION IN COLLEGE CAMPUS

Sanitation in college campus and also conocarpous sps are released a pollutant factors, that's why all students and staff members both are together cut the pollutant plants.

The COVID-19 pandemic had an interesting and multifaceted relationship with environmental issues, including pollution and deforestation. While the global lockdowns led to a temporary reduction in certain forms of pollution, other environmental challenges persisted or worsened.

During the initial phases of the pandemic, global lockdowns led to a drastic reduction in industrial activities, transportation, and energy use. This resulted in significant drops in air pollution, especially in major cities. Studies showed decreased levels of nitrogen dioxide (NO₂) and particulate matter (PM_{2.5} and PM₁₀), which are harmful pollutants primarily released from vehicles and industrial.

Purpose of Sanitizer Sprayers: Sanitizer sprayers are devices that spray disinfectant solutions over surfaces, aiming to kill viruses, bacteria, and other pathogens. During the COVID-19 pandemic, their use became essential in colleges to disinfect high-touch areas such as:

- **Classrooms**
- **Libraries**
- **Cafeterias**
- **Restrooms**
- **Common rooms**
- **Corridors and stair railings**

- **Sports and gym equipment**

The COVID-19 virus is primarily transmitted through respiratory droplets, but it can also survive on surfaces for extended periods. Given the high foot traffic and shared facilities in college campuses, ensuring proper sanitation became a priority to minimize the risk of virus transmission. Colleges across the globe had to follow guidelines provided by health authorities, such as the World Health Organization (WHO) and the Centers for Disease Control and Prevention (CDC), to maintain a clean and safe environment.

. Increased Cleaning Frequency

- **Classrooms, libraries, restrooms, and other high-touch areas were cleaned and disinfected multiple times a day.**
- **Special attention was given to surfaces like**

doorknobs, handrails, desks, and computers.

b. Use of Disinfectants

- **Colleges employed EPA-approved disinfectants effective against the coronavirus.**
- **Disinfection protocols included the use of sprays, wipes, and electrostatic sprayers for large areas.**

THANK YOU

(Accredited with C grade by NAAC)

2021-2022

POLLUTION AND PLASTIC FREE CAMPUS

1.POLLUTION FREE CAMPUS USED BY BICYCLES AND ECO-SCOOTY.

Bicycle Infrastructure:Bike Lanes and Parking: Establishing dedicated bike lanes and secure parking facilities are crucial for encouraging bicycle use. Well-marked bike lanes ensure the safety of cyclists and pedestrians, while ample parking reduces theft concer.

Pollution-Free Bicycles: A Sustainable Solution
Bicycles are an environmentally friendly mode of transport. They emit no pollutants or greenhouse gases during operation, require minimal raw materials to manufacture, and help in reducing traffic congestion. In addition, the infrastructure needed to support cycling—such as bike lanes—has a far smaller ecological footprint than roads and highways designed for motor vehicles.

Key Benefits of Using Pollution-Free Bicycles

- 1. **Zero Emissions:** Unlike cars, motorbikes, and buses, bicycles produce zero emissions. This helps reduce urban air pollution, including harmful gases such as carbon dioxide, carbon monoxide, nitrogen oxides, and particulate matter.
- 2. **Energy Efficiency:** Bicycles are among the most energy-efficient modes of transportation. They use human power, which requires no fuel or electricity, making them a highly sustainable alternative.
- 3. **Health Benefits:** Cycling promotes physical activity, which is essential for preventing cardiovascular diseases, obesity, and other health problems associated with sedentary lifestyles. Reduced air pollution also contributes to better public health in urban areas.

2022-02-05(Sat) 10:43(AM)

POLLUTION FREE-ECO-SCOOTY

Infrastructure for E-Scooters

Charging Stations: Installing charging stations at strategic locations around the campus ensures that e-scooters are always ready for use. Solar-powered charging stations can further enhance the sustainability of this initiative. **E-Scooter Sharing Programs:** Similar to bike-sharing programs, e-scooter sharing allows students to rent scooters for short trips. This is particularly useful for covering longer distances or when time is a constraint.

Conclusion: Adopting bicycles and battery scooters as primary modes of transportation on campus is a viable solution for creating a pollution-free, safe, and healthy environment during the COVID-19 pandemic. By investing in infrastructure, promoting awareness, and offering incentives, the campus can make significant strides toward sustainability while also addressing the challenges posed by the pandemic. In the long term, this initiative will contribute to both the health of individuals and the planet, making it a win-win for everyone involved.

2. AND OUR HONOROUBLE COMMISSIONER SIR SRI.POLA BHASKAR GARU VISITED TO GDC.RAYACHOTY:

Commissioner sir sri.pola Bhaskar garu planting saplings in GDC.RAYACHOTY

As environmental concerns continue to rise, educational institutions have an increasing responsibility to contribute to sustainability efforts. Our campus is taking a proactive approach toward reducing carbon footprints and pollution through the establishment of a C-plantation (carbon sequestration plantation) initiative. This report outlines the steps, benefits, and strategies of implementing a pollution-free campus initiative through C-plantation

Inspire ongoing environmental initiatives and a commitment to sustainability within the campus community.

The "Pollution-Free Campus Plantation" initiative was launched with the aim of creating a greener, healthier, and more sustainable environment on campus. This initiative aligns with our institution's commitment to environmental conservation and sustainability. The project focuses on increasing the green cover, reducing pollution levels, and fostering a sense of responsibility towards nature among the campus community. The plantation drive has had a significant positive impact on the campus environment. The newly planted trees are expected to:

GDC.RAYACHOTY Principal madam planting the saplings in Red Ribbon Club

Principal madam planted saplings in the presence of college campus

WomenEmpowerment cell

Women Empowerment cell.

The "Pollution-Free Campus Plantation" initiative was a resounding success, thanks to the collective efforts of the entire campus community. The initiative not only contributed to a greener campus but also instilled a sense of environmental stewardship among participants. Moving forward, continuous efforts will be made to maintain and expand the green cover, ensuring that our campus remains a pollution-free zone. The Women Empowerment Cell (WEC) of [Your Institution's Name] recently organized a plantation drive, aimed not only at fostering environmental sustainability but also at promoting active participation of women in community-building initiatives. This initiative aligns with the dual goal of creating greener spaces and empowering women to take leadership in environmental conservation efforts. The following report details the objectives, activities, and impact of the plantation drive

organized by the WEC.

Workshops and Awareness Campaign

Alongside the plantation drive, the Women Empowerment Cell organized workshops on environmental conservation, eco-friendly practices, and the significance of tree plantation in combating climate change. These workshops were led by female environmentalists and faculty members from the environmental science department, emphasizing women's role in leading environmental initiatives.

Objectives

1. Promote Environmental Sustainability: Increase green cover through the plantation of saplings.
2. Empower Women through Leadership: Encourage leadership roles among women participants. students are participated:20.

THANK YOU.

2022-2023
POLLUTION AND PLASTIC FREE CAMPUS
1.AWARNESS
ON
BAN ON PLASTIC USAGE, DISTRIBUTION OF JUTE BAGS TO STUDENTS.

- **Plastics break down into microplastics, contaminating soil and water bodies, harming marine and terrestrial life.**
- **Health Hazards: Chemicals in plastics can leach into food and water, posing risks to human health.**

The global environmental crisis has prompted governments and organizations worldwide to take significant steps toward reducing plastic pollution. One such measure is the ban on single-use plastics, which has gained momentum in many countries. This report explores the implications of this ban and the promotion of jute bags as an eco-friendly alternative.

As plastic bans take effect, there is an increasing need for sustainable alternatives. Jute bags have emerged as

a popular option due to their **ECO-friendly** nature. The benefits of using jute bags.

All students and staff are cleaned the plastic papers,garbages and waste covers in the bag.

Plastic pollution has become a major environmental issue worldwide, impacting ecosystems, wildlife, and human health. In line with global efforts to reduce plastic waste, our campus has taken a proactive step by banning the use of plastic bags and promoting eco-friendly alternatives like jute bags. This report discusses the initiative, its implementation, and the impact it has had on the campus community.

Objective of the Ban: The primary objective of the ban on plastic bags is to reduce the campus's environmental footprint. By encouraging the use of sustainable alternatives like jute bags, the campus aims to:

- Minimize plastic waste.
 - Promote environmentally responsible behavior.
 - Educate the community on the importance of sustainability.
- Implementation of the Ban:** The ban was officially enforced on [insert date], following a campus-wide campaign led by the environmental club and administration. Key steps taken to implement the ban included:

Objective of the Ban: The primary objective of the ban on plastic bags is to reduce the campus's environmental footprint. By encouraging the use of sustainable alternatives like jute bags, the campus aims to:

- **Minimize plastic waste.**
- **Promote environmentally responsible behavior.**
- **Educate the community on the importance of sustainability.**

a reduction in plastic waste and increased awareness of environmental issues. Continued efforts are needed to ensure long-term success and to encourage the wider community to adopt eco-friendly practices

No.of students are participated:30.

impact of the Ban: Since the ban was enforced, several positive outcomes have been observed:

- **Reduction in Plastic Waste:** There has been a noticeable decrease in the amount of plastic litter on campus. The facilities team reported a 30% reduction in plastic waste within the first three months.
- **Increased Environmental Awareness:** The initiative has sparked discussions among students about the importance of sustainability, leading to more eco-friendly practices like reducing single-use plastic and recycling.

- **Expand the awareness campaign to include workshops on other sustainable practices like composting and energy conservation.**
 - **Introduce incentives for students and staff who consistently use eco-friendly products.**
 - **Explore the possibility of banning other single-use plastic items like straws and bottles to further reduce plastic waste on campus.**

The ban on plastic bags and promotion of jute bags has been a significant step towards creating a greener, more sustainable campus. While there have been challenges, the overall impact has been positive, with

THANK YOU

ACTIVITY-2

2.ECO-CLUB-ECO-FRIENDLY VINAYAKA IDOL WITH CLAY, AND 21 TYPES OF MEDICINAL VALUES OF PLANTS.

Creating a Vinayaka (Ganesha) idol using clay and 21 types of medicinal leaves is a practice rooted in traditional Indian customs, especially in the context of eco-friendly celebrations. Here's a report on the process and significance:

The practice of creating eco-friendly Ganesha idols is gaining popularity as awareness about environmental conservation increases. Traditionally, Ganesha idols were made from materials like Plaster of Paris (PoP), which are not biodegradable and contribute to environmental pollution. In contrast, clay idols are eco-friendly and dissolve easily in water without harming aquatic life. Adding medicinal leaves to the clay further enhances the idol's ecological and spiritual significance. Materials Required:

Clay: Natural, non-toxic clay is the primary material used to make the idol. Clay is easily moldable and dissolves in water without causing pollution.

21 Types of Medicinal Leaves: These leaves are chosen for their traditional significance and medicinal properties. Some common examples include:

Each of the 21 leaves has a symbolic and medicinal value, contributing to the idol's spiritual and health benefits: □
Tulsi: Promotes spiritual purity and is considered sacred.

- **Neem:** Known for its antibacterial properties, it purifies the environment.
- **Datura:** Used in Ayurvedic treatments for various ailments.
- **Mango leaves:** Symbolize prosperity and are used in rituals.
- **Turmeric leaves:** Used for purification and healing.

The practice of creating Vinayaka idols from clay and 21 types of medicinal leaves is a beautiful blend of tradition, spirituality, and environmental consciousness. It not only honors Lord Ganesh but also promotes eco-friendly practices that contribute to the well-being of the planet.

Many plants, revered in Hindu traditions and rituals, have medicinal properties. These plants are often used in Ayurveda and traditional healing practices.

- **Traditional POP idols** take months or years to dissolve, causing water pollution, killing aquatic life, and affecting ecosystems.
- **Chemical-Free:** POP idols are often painted with synthetic dyes containing harmful chemicals like lead, mercury, and cadmium, which contaminate water bodies.
- **Sustainability:** Eco-friendly idols promote sustainability by using biodegradable materials that dissolve quickly and safely after immersion.

No. of students are participated: 30.

THANK YOU.

ACTIVITY-3

AWARNESS PROGRAMME ON OZONE DAY AND POSTER PRESENTATION.

Poster presentation watched the aprincipal madam and other staff members.

This day commemorates the signing of the Montreal Protocol in 1987, a landmark global agreement aimed at phasing out the production and consumption of ozone-depleting substances (ODS). This report focuses on the importance of a pollution-free environment in sustaining the ozone layer and the ongoing efforts to protect this vital atmospheric component.

While ozone depletion is primarily driven by specific chemicals, general pollution plays a significant role in exacerbating environmental issues that indirectly affect the ozone layer. Air pollution, particularly from industrial emissions, transportation, and deforestation, contributes to global warming and climate change. Climate change, in turn, affects atmospheric conditions and can influence the distribution and concentration of ozone in the stratosphere.

Prize Distribution to the best poster presentation by principal madam and vice-principal sir, programe co-ordinator sri.Bhanu prakash Reddy sir.

Conclusion: Ozone Day serves as a reminder of the critical importance of maintaining a pollution-free environment to ensure the protection and recovery of the ozone layer. The success of the Montreal Protocol demonstrates the power of global cooperation in addressing environmental challenges. However, continued vigilance, innovation, and action are necessary to overcome remaining obstacles and to safeguard the health of our planet and future generations.

As individuals and communities, we can contribute to a pollution-free environment by reducing our carbon footprint, advocating for sustainable practices, and supporting policies aimed at protecting the ozone layer. By doing so, we can help ensure that Ozone Day remains not only a day of reflection but also a celebration of our ongoing efforts to preserve the Earth's atmosphere

The ozone layer is a critical part of Earth's atmosphere, located in the stratosphere, that absorbs the majority of the sun's harmful ultraviolet (UV) radiation. Protecting the ozone layer is crucial for the prevention of skin cancer, cataracts, and other health risks, as well as for the protection of ecosystems. Over the years, substances like chlorofluorocarbons (CFCs) and other ozone-depleting substances (ODS) have caused a thinning of the ozone layer, leading to the formation of the ozone hole.

Recommendations:

- 1. Continue expanding renewable energy usage on campus.**
- 2. Increase the number of environmental education programs.**
- 3. Collaborate with local communities to create broader awareness about ozone layer protection.**
- 4. Periodically review and update campus sustainability practices to stay aligned with global environmental goals.**

DEPARTMENT OF LIBRARY: GREEN BOARD ACTIVITY

The Green Board Activity is an educational program and best practice started by Department of Library to promote environmental consciousness among students and raise awareness among students about critical issues like environmental pollution and global warming. Through the making posters and displays at entrance of the library, students will actively engage in learning about these topics. This program aims to instill a sense of responsibility towards the environment and encourage sustainable practices.

The department of Library is conducting a Green Board Activity started from 2022-2023 academic year. The concept of Environment pollution and global warming is propagating throughout the year by collection of information regarding environment, poster making and displayed on the green board. Students are encouraged to collect the information, pictures, quotations, drawings; paintings are displayed on the green board. The library provides a display board on which posters are displayed by the students themselves.

OBJECTIVES:

1. To provide students with a concept of environmental pollution and global warming Causes, effects and solutions.
2. To encourage students to express their ideas and knowledge creatively through making of posters.
3. To encourage their creative skills in painting, drawing, expressing, and collecting of ideas.
4. To provide a platform to express their ideas for environmental changes.
5. To instill a sense of social responsibility towards the environment and sustainable practices.

OUTCOMES of the Program:

1. Increased awareness and developed a deeper understanding of environmental pollution and global warming.
2. Improved knowledge on concept of environment and global warming.
3. Developed knowledge on innovative skills like drawing, painting and collecting the information.
4. Enhanced their critically thinking capability on causes and solution of the concept.
5. Active participation of the students is observed.

Green Board Activity by the students-9-8-2022

NSS PROGRAM OFFICER

INTRODUCTION

NATIONAL SERVICE SCHEME popularly known as NSS was launched in Gandhi's Birth Centenary Year 1969, under the Ministry of Youth Affairs & Sports Govt. of India. The scheme was launched simultaneously in 37 Universities involving 40,000 students with primary focus on the development of personality of students through community service and promotion of National solidarity. In India, the idea of involving students in the task of national service dates back to the times of Mahatma Gandhi, the father of the nation. The central theme which he tried to impress upon his student audience time and again was that they should always keep before them, their social responsibility. The first duty of the students should be, not to treat their period of study as one of the opportunities for indulgence in intellectual luxury, but for preparing themselves for final dedication in the service of those who provided the sinews of the nation with the national goods & services so essential to society. Advising them to form a living contact with the community in whose midst their institution is located, he suggested that instead of undertaking academic research about economic and social disability, the students should do "something positive so that the life of the villagers might be raised to a higher material and moral level". NSS works on the premise that it is possible to awaken the villagers and slum dwellers to their responsibilities and develop in them the confidence, to tackle their common problems with energy, enthusiasm and in a co-operative spirit, based on mutual aid and self-reliance. The role of students is limited as activists, enablers, catalytic agents with wider communities and as programme aids. The main objectives of National Service Scheme (NSS) are:

- Understand the community in which they work.
- Understand themselves in relation to their community.
- Identify the needs and problems of the community and involve them in problem solving.
- Develop among themselves a sense of social and civic responsibility.
- Utilize their knowledge in finding practical solutions to individual and community problems.
- Develop competence required for group-living and sharing of responsibilities.
- Gain skills in mobilizing community participation.
- Acquire leadership qualities and democratic attitudes.
- Develop capacity to meet emergencies and natural disasters and
- Practice national integration and social harmony.

MOTO OF NSS: "NOT ME, BUT YOU" reflects the essence of democratic living and upholds the need for selfless service and appreciation of the other person's point of view and also to show consideration for fellow human beings. It underlines that the welfare of an individual is ultimately dependent on the welfare of society on the whole. Therefore, it should be the aim of the NSS to demonstrate this motto in its day-to-day programme.

NSS SPECIAL CAMP: Special Camping forms an integral part of National Service Scheme. It has special appeal to the youth as it provides unique opportunities to the students for group living, collective experience sharing and constant interaction with community.

The aim of the NSS special camp is to educate the people and empower them. With this motto, the NSS UNIT comprising 49 students has organized a special camp at Motakatla Village, Sambapalli Mandal near Rayachoty of YSR district. The camp has been conducted under the supervision of college management and NSS program officer N. RAJA SEKHAR REDDY . The NSS team members divided among themselves into 5 groups and conducted a 7 days special camp in the Motakatla Village.

DATE	ACTIVITIES
2 nd February, 2020	CLEANING OF SCHOOL CAMPUS & COMMUNITY SANITATION IN VILLAGE
3 rd February, 2020	TREE PLANTATION & RALLEY ON WATER & ENERGY CONSERVATION
4 th February, 2020	CLEANING THE SURROUNDINGS OF TEMPLE & MASJID

CLEANING OF THE SCHOOL CAMPUS AND COMMUNITY SANITATION IN VILLAGE DATE: 02-02-2020

On the Third day of special camp NSS Volunteers done shramadanam. On this occasion volunteers removed all thorn plants present in the surroundings of High School, Primary school and on the road sides of village. They also removed all the debris present on road sides of village. They also cleaned the drainage canals around the public bore well of the village. On this day along with NSS volunteers Lecturers B.Rams agar, P.Viswa Prasad & U. Prasad also participated

TREE PLANTATION & RALLY ON & WATER ENERGY CONSERVATION, NO PLASTIC USE

DATE:- 03-02-2020

On the 4th day NSS volunteers planted Dubai teak plantlets in the school premises. First volunteers dig pits and later planted trees. In this programme ZP High School Head Master, Venkata Subbaiah, PET Manohar Reddy, Lecturers U.Prasad, Viswa Prasad, Rammohan Reddy etc are participated. During Afternoon Students have taken door to door campaign on Water and Energy Conservation. They enlightened the villagers about importance of water and Energy, and how to save the Water and energy for future generation.

CLEANING THE SURROUNDINGS OF TEMPLE AND MASJID DATE:- 04-02-2020

On the 5th day students started activities with cleaning of the temple. Motakatla Sivalayam is a old famous temple in the surroundings of Rayachoty. In this Maha Sivaratri Festival is celebrated grandly. On this occasion with the request of temple Dharmakarth Amaranata Reddy Volunteers cleaned the temple in and surroundings amd made it so beautiful. On the same day some students cleaned the surroundings of Masjid which is present near Motakatla village.

Report on World Environment Day 2022 Celebration at GDC Rayachoty

Date: June 5th, 2022

Location: Rayachoti, Anamaya District

Event Overview:

World Environment Day, celebrated annually on June 5th, was observed with great enthusiasm in Rayachoty, Anamaya District. The program focused on raising awareness of social and environmental issues, underlining the importance of sustainability and community involvement in preserving the environment.

Chief Guests:

The event was graced by the presence of several distinguished guests, including:

- Rayachoty MLA: Gadi Kota Srikanth Reddy garu
- District Collector: Sri Geerisham garu
- Superintendent of Police: Sri Harsha Vardhan Raju garu

Event Highlights:

5K Rally and Morning Walk:

The day began with a 5K rally and morning walk, aimed at promoting environmental awareness and encouraging healthy living among the participants. The rally was a significant highlight of the event, with active participation from various community members, including students from GDC Rayachoty College.

Involvement of GDC Rayachoty College:

The students of GDC Rayachoty College played a crucial role in the event, joining the 5K rally with great enthusiasm. Their participation highlighted the involvement of the youth in environmental causes and their commitment to making a positive impact on society.

Messages from Dignitaries:

- MLA Gadi Kota Srikanth Reddy garu addressed the gathering, emphasizing the need for collective action in tackling environmental challenges and promoting sustainable practices within the community.
- District Collector Sri Geerisham garu spoke about the importance of environmental conservation and the role that each individual plays in protecting natural resources.
- Superintendent of Police Sri Harsha Vardhan Raju garu highlighted the importance of community involvement in environmental initiatives and encouraged the public to continue participating in such meaningful events.

Conclusion:

The World Environment Day program in Rayachoty was a resounding success, with active participation from the community and a strong message of environmental stewardship delivered by the dignitaries. The 5K rally, in particular, served as a powerful reminder of the importance of working together to protect our environment for future generations.

The event not only raised awareness but also inspired the participants to take actionable steps towards a more sustainable and environmentally conscious lifestyle.

Report on Social Relevant Theme on Beyond the Environmental Promotional Activities at the Community Service Project Programme - May and June month of 2022 Conducted by the GDC Rayachoty

Event Overview:

In the months of May and June 2022, GDC Rayachoty College took an active role in serving the community by organizing a Community Service Project Programme. The initiative was focused on addressing social issues and promoting environmental awareness through various activities conducted in the villages surrounding Rayachoty.

Programme Details:

Community Engagement:

Students from GDC Rayachoty College were actively involved in this project, conducting activities that centered around social relevant themes. The focus extended beyond just environmental promotion to include a wide range of community-based services.

2. Activities in Villages:

The programme was conducted in several villages around Rayachoty. The students organized and participated in various activities that addressed local issues such as health and hygiene, waste management, and water conservation. These activities were aimed at improving the quality of life in these villages and promoting sustainable practices.

Environmental and Social Awareness:

The students also engaged in awareness campaigns that highlighted the importance of environmental conservation, while also addressing social concerns such as education, public health, and the importance of clean surroundings. These campaigns were well-received by the villagers, who appreciated the efforts made by the students to bring positive change to their communities.

Collaborative Effort:

The project was a collaborative effort between the college and the local communities. The involvement of students not only provided them with valuable hands-on experience but also fostered a sense of responsibility towards their society.

Conclusion:

The Community Service Project Programme conducted by GDC Rayachoty College in May and June 2022 was a commendable initiative that brought about meaningful change in the villages around Rayachoty. Through their efforts, the students were able to contribute to the welfare of the community, promote environmental and social awareness, and gain a deeper understanding of the challenges faced by rural areas. The program was a great success and set a strong example of how educational institutions can play a vital role in community development.

Report on NCC Cadets' Conducted People Awareness and Tree Plantation Programme at SC Colony, MPPS SCHOOL , Rayachoti.

Date: 6th June 2022

Location: MPPS School, SC Colony.

Introduction:

On 6th June 2022, the NCC Cadets from Government Degree College, Rayachoti, organized a comprehensive community service event focusing on people awareness and tree plantation at the MPPS School in SC Colony, Gurrappagaripalli. This initiative was part of their ongoing commitment to environmental sustainability and social welfare.

Objective:

The program aimed to enhance environmental consciousness among the local community, particularly the students, and to promote the importance of afforestation and sustainable living practices.

Activities Conducted:

1. People Awareness Program:

- The cadets conducted awareness sessions for the students and local residents on various social and environmental issues.
- Key topics included the importance of education, health and hygiene practices, waste management, and the benefits of tree plantation for environmental conservation.
- The cadets used visual aids and interactive discussions to ensure that the message was effectively communicated and well-understood by the participants.

2. Tree Plantation Drive:

- The cadets organized a tree plantation drive within the school premises and the surrounding areas of SC Colony.
- Various saplings, including fruit-bearing and shade-giving trees, were planted to improve the greenery of the area.
- The cadets also educated the students and villagers on the proper care and maintenance of the newly planted trees, stressing the long-term benefits of a greener environment.

3. Distribution of Educational and Environmental Materials:

- The cadets distributed pamphlets and brochures that provided information on the importance of trees, sustainable living practices, and the role of individuals in protecting the environment.
- Educational materials such as notebooks and pens were also distributed to the students to encourage their academic growth.

Outcome:

The event was a great success, with enthusiastic participation from the students, teachers, and local community members. The awareness sessions sparked interest and understanding among the villagers regarding environmental conservation and personal hygiene. The tree plantation drive added significant greenery to the school area and was a step towards creating a more sustainable environment for future generations.

Conclusion:

The NCC Cadets of Government Degree College, Rayachoty, effectively contributed to the community through this awareness and tree plantation program. Their efforts not only enhanced the environmental awareness of the participants but also led to tangible improvements in the local landscape. The program was a testament to the cadets' dedication to social and environmental causes, leaving a positive and lasting impact on the community.

Report on NCC Students' Water Pond Cleaning Activities

Years: 2021, 2022 & 2023

Location: Narayareddy gray palli, Yerraguntla, Cherukindapalli and Valsalva Water Pond Bodies, Rayachoty.

Introduction:

The NCC students of Government Degree College, Rayachoty, have demonstrated a strong commitment to environmental protection by engaging in activities beyond typical environmental promotion. In 2021 and 2022, the students conducted annual clean-up drives targeting local water pond bodies, focusing on removing plastic waste and other harmful materials to protect the environment and ensure the safety of wildlife.

Objective:

The primary objective of these activities was to clean the water bodies of plastic and other pollutants, thereby ensuring safer and healthier ecosystems for both wildlife and the local community. This initiative aimed to reduce pollution, enhance water quality, and raise awareness about the importance of maintaining clean water resources.

Activities Conducted:

1. Pond Cleaning Drives:

The NCC students organized clean-up drives at various water ponds in Rayachoty.

They meticulously removed plastic waste, discarded materials, and other pollutants from the water bodies and surrounding areas.

The collected waste was segregated and properly disposed of, following environmental guidelines.

2. Awareness Campaigns:

Alongside the clean-up efforts, the students conducted awareness campaigns to educate the local community about the dangers of plastic pollution and the importance of keeping water bodies clean.

They interacted with local residents, encouraging them to avoid dumping waste in ponds and to participate in future clean-up activities.

3. Environmental Protection Measures:

The cadets also implemented measures to prevent further pollution of these water bodies. This included setting up signboards around the ponds, warning against littering and dumping waste.

They worked with local authorities to ensure regular monitoring and maintenance of the cleaned areas.

Outcome:

The pond cleaning activities in 2021 and 2022 were highly successful, resulting in cleaner and safer water bodies in Rayachoty. These efforts not only improved the local environment but also helped to protect wildlife that depends on these water sources. The awareness campaigns led to increased community involvement and a greater understanding of environmental conservation.

Conclusion:

The NCC students of Government Degree College, Rayachoty, have shown exemplary leadership in environmental stewardship through their annual pond cleaning activities. Their dedicated efforts have significantly contributed to the preservation of local water bodies, ensuring a safer habitat for wildlife and a healthier environment for the community. These activities underscore the importance of continued vigilance and community participation in environmental protection.
