Law

- 1) Potentiometer:- In the potentiometer the contact position of the slide wire is varied by an external force causing the change in resistance. These are applied in measuring pressure, displacement etc.
- 2) Resistance thermometer:- Here the resistance of the metal varies with the temperature. It is used in temperature and radiant heat measurements.
- 3) Strain gauge:- In this type, resistance of a coil wire changes when external stress is applied. They are used in measuring instruments of stress, strain, force, torque, displacement.
- 4) Photo conductive cells:- Here the resistance of the cell varies with incident light. They are used in photosensitive relays.
- 5) Thermistor:- Thermistor is a semi-conducting material whose resistance varies with temperature. This is used in temperature measurement.
- 6) Resistance hygrometer:- The resistance of a conductive wire changes with the moisture content. It is used in measuring relative humidity.
- 7) Capacitor transducer:- The variation of capacitance is produced by varying the distance between the plates by an external force. It is used in measuring pressure, displacement and so on.
Dielectric transducer:- The capacitance of a parallel plate capacitor changes by changing the dielectric medium. It is used in measuring the liquid level and thickness of the material.
Hall effect pickup:- The voltage is generated across a semi-conductor plate when a current carrying semi conductor plate when magnetic flux is applied to it. It is used to measure magnetic flux and current.
Photo emissive cells:- The electron emission takes place due to the radiation on photo sensitive surface. It is used in measuring radiation and light.

DEPARTMENT OF ENGLISH

TEACHING USING ICT TOOLS Years 2018-2024

Report on Online Classes during the Covid-19 Period

Lecturer: N RAJAGOPAL REDDY

Institution: Government Degree College, Rayachoty

Subject: English

Report on Online Classes During the Covid-19 Period

Introduction

The COVID-19 pandemic significantly disrupted traditional modes of education. To ensure uninterrupted learning, Government Degree College, Rayachoty, transitioned to online classes, leveraging digital platforms for academic engagement. As part of this initiative, I, N. Rajagopal Reddy, Lecturer in English, actively conducted online classes to support students in continuing their education despite the unprecedented challenges.

Objectives of Online Teaching

- To ensure continuity of English language and literature instruction during lockdowns.
- To provide students with academic support and maintain curriculum progression.
- To encourage student engagement through digital tools and resources.
- To adapt to evolving modes of digital pedagogy in line with institutional goals.

Platforms and Tools Used

- **Google Meet:** For live, interactive lectures.
- **Whats App Groups:** For sharing study materials, assignments, and announcements.
- **YouTube Links:** Shared for supplemental video resources and recorded lectures.
- **Google Classroom:** Used for assignment submission and feedback.
- **PDF/Word Docs and PPTs:** Provided as additional reading and reference materials.

Class Schedules and Curriculum Coverage

- Classes were conducted as per a structured timetable adapted for online delivery.
- Both Major and General English syllabi were covered as per academic calendar.
- Special focus was given to communication skills, comprehension, and literary analysis.
- Periodic assessments (quizzes, assignments, and discussions) were integrated to evaluate student understanding.

Student Participation and Challenges

- Attendance was tracked through online logs and active participation in discussions.
- While a majority of students adapted to the online format, some faced challenges:
 - **Limited access to smartphones or stable internet.**
 - **Electricity issues in rural areas.**
 - **Lack of digital literacy among some students.**

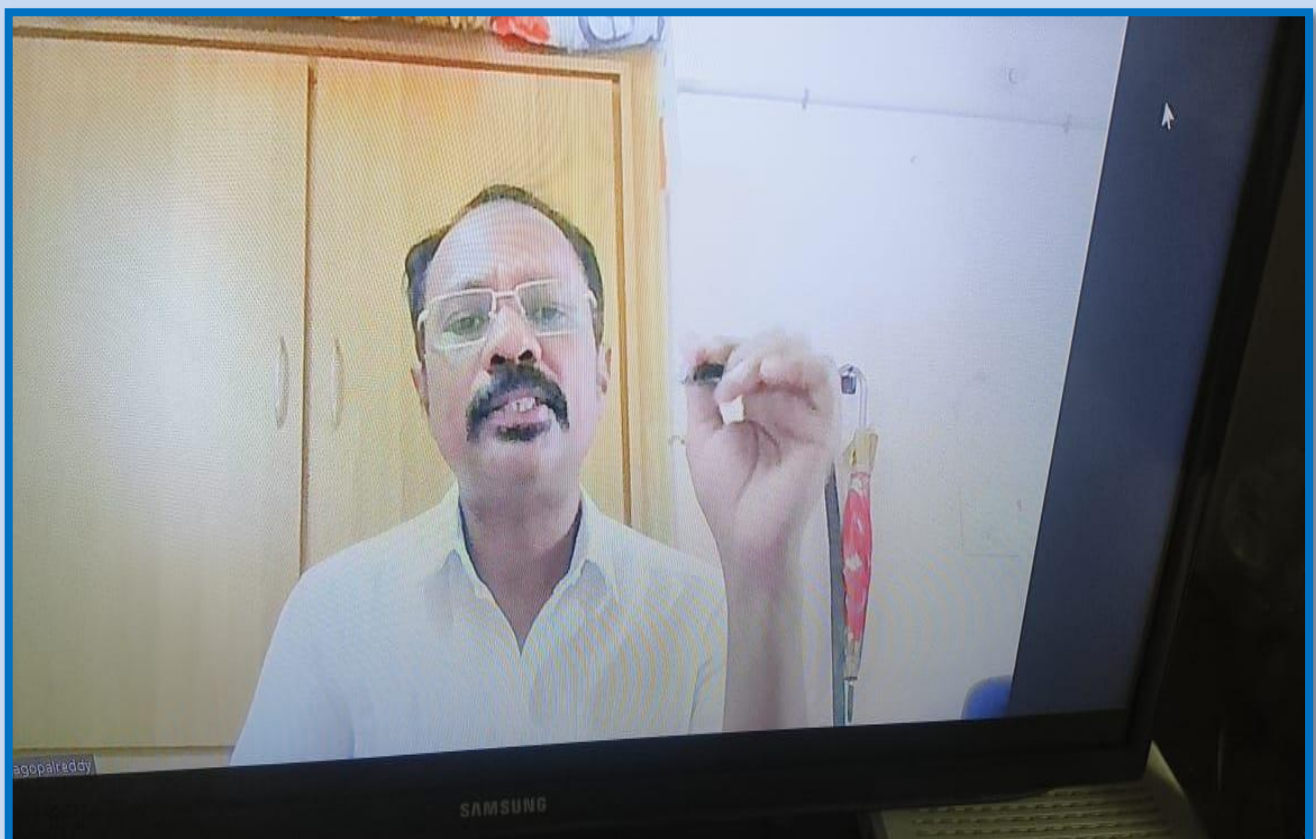

To address these, recorded sessions and offline resources were provided wherever possible.

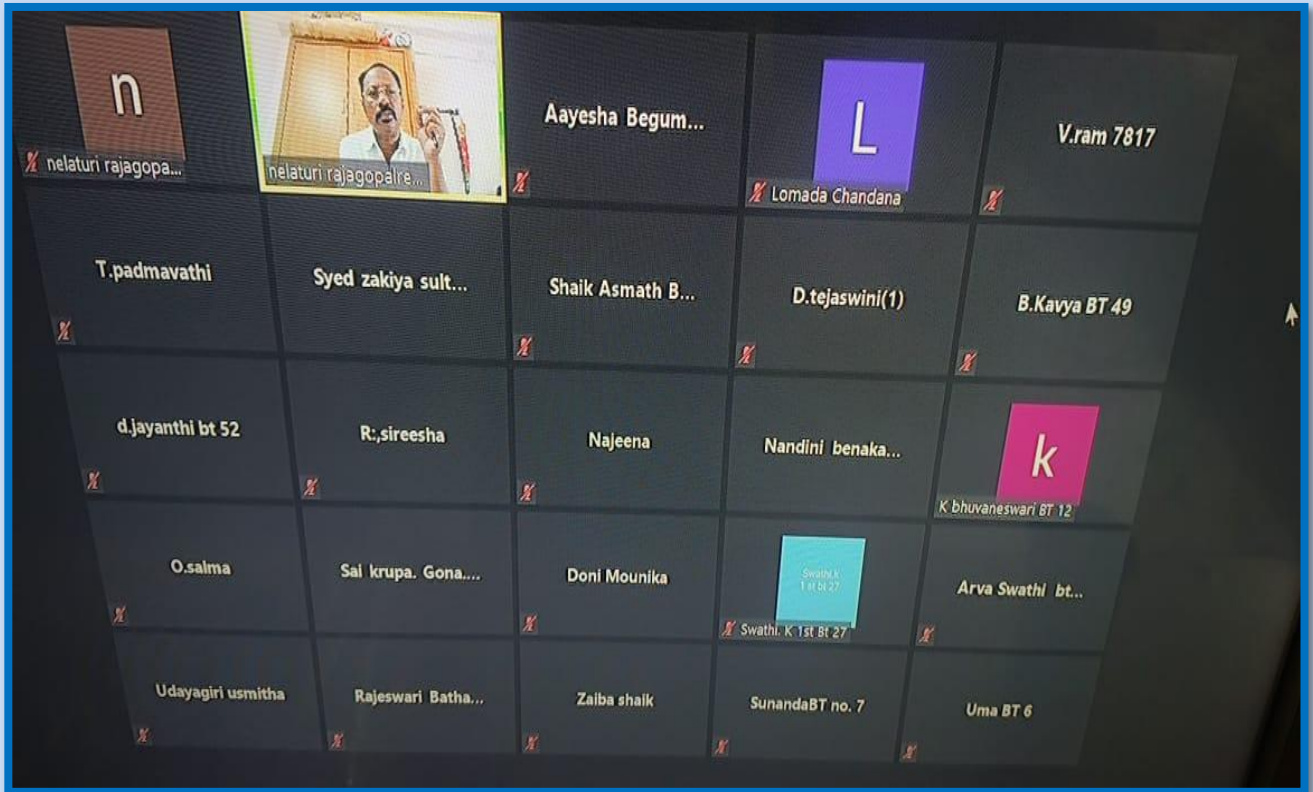

Outcomes and Feedback

- Students showed commendable adaptability and interest in continuing their education online.
- Feedback collected via Whats App and direct calls indicated:
 - Increased comfort with self-paced learning.
 - Appreciation for flexibility in resource access.
- Several students improved in areas such as listening comprehension and digital communication.

Conclusion

The online teaching experience during the COVID-19 lockdown was a learning opportunity for both students and faculty. Despite technological and socio-economic barriers, the commitment to education remained strong. I am proud to have contributed to this transitional phase in education by ensuring continuity in English instruction.

GOVERNMENT DEGREE COLLEGE RAYACHOTY

(Affiliated to Yogi Vemana University)

Chittoor Road, Rayachoty, ANNAMAIAH (Dist.)

ACCREDITED BY NAAC WITH "C" GRADE

DEPARTMENT OF BOTANY

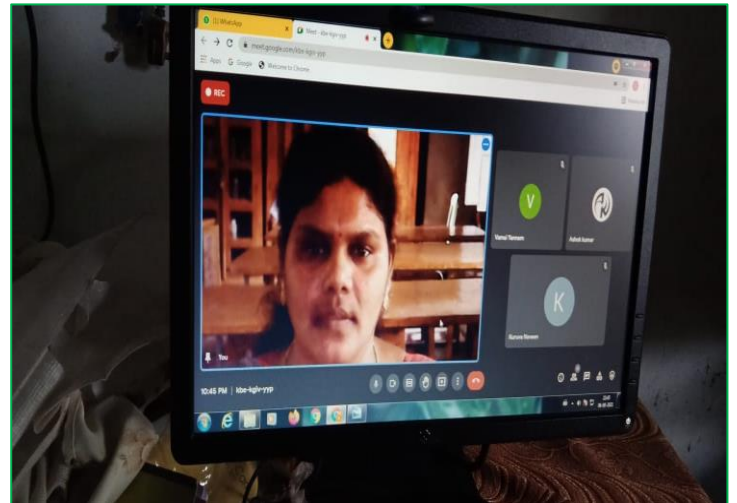

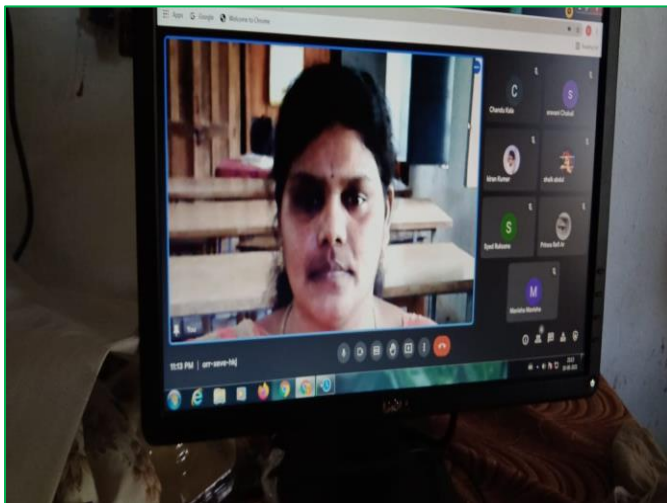

TEACHING ICT TOOLS DURING POST COVID

Name of the Lecturer: **Battu.Shantha kumari.**

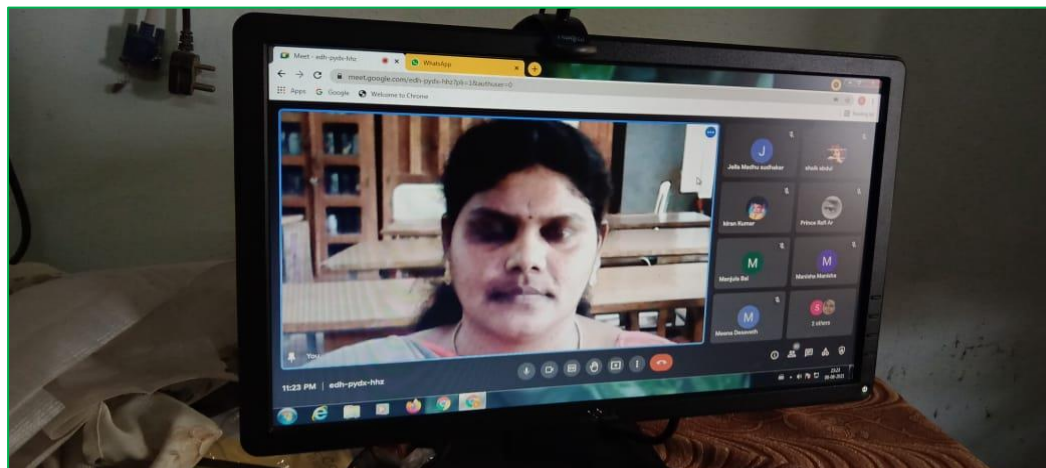

Online platform used: **Teachmint,Google meet,Zoom,Virtual Labs.**

Offline ICT Tools: **Projector,Screen,Virtual Labs.**

ONLINE

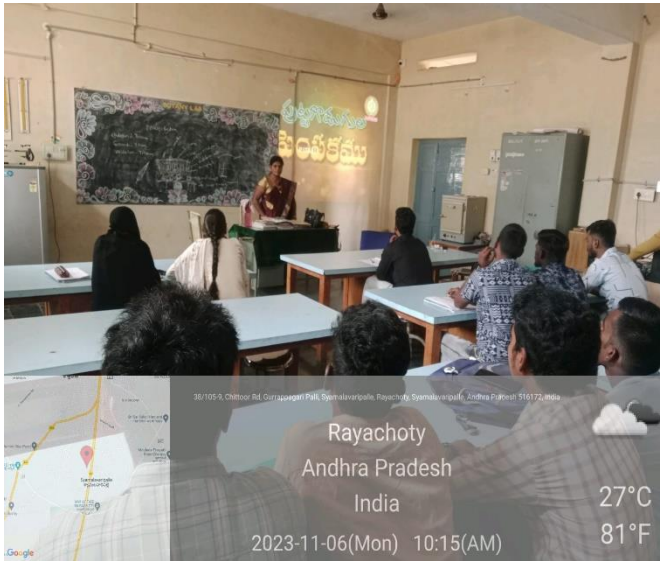

Online classes are used for a variety of purposes across education, professional training, and personal development.

Important facts, formulas, or concepts are highlighted, so students can focus on what matters most.

- **Interactive Learning:**

Some PPTs include quizzes, polls, or clickable links, making classes more engaging.

- **Easy Revision:**

Students can quickly revise before exams using summarized PPT slides.

- **Better Note-Taking:**

PPT outlines help students structure their own notes properly.

- **Presentation Skills:**

Students learn to create and deliver their own presentations, improving communication and confidence.

- **Self-Paced Learning:**

Students can review PPTs anytime if they miss or don't understand something in live classes.

THANK YOU

The objective of the Balance Sheet

The balance sheet is prepared with the following objects:

- **Knowing the financial position of a business.**
- **Knowing the real value of assets.**
- **Knowing the amount and nature of liabilities.**
- **Verification of debt paying capability of a business.**
- **Knowing the trend of changes in assets and liabilities.**
- **Knowing the trend of profit or loss of business.**
- **Knowing the deduction of depreciation from assets.**

Unit-I Introduction of Auditing

Definition and Meaning of Auditing:

The term 'audit' has been derived from the Latin term 'audire' which means to listen. In early days a person had to listen to the accounts read over by an accountant to check them. He was known as the auditor.

Montgomery: "a systematic examination of the books and records of a business or other organisation, in order to check or verify and to report upon results thereof."

Q: 1) Explain the Objectives of Auditing.

the objectives of audit are categorized as

1). primary or main objectives

2). secondary objectives

Importance of Balance Sheet

Balance sheet analysis can reveal a lot of important information about a company's performance. Importance of balance sheet is listed below:

- It is an important tool used by outsiders such as investors, creditors, and other stakeholders to understand the financial health of an entity.
- It is a tool to measure the growth of an entity.
- This can be done by comparing the balance sheet of different years.
- It is an essential document that must be submitted to the bank to obtain a business loan.
- It helps stakeholders to understand the business performance of the entity.

Q:2) what is Importance of Audit.

Ans:

- 1) Audited accounts help a sole trader in knowing the value of the business for the purpose of sale.
- 2) Dispute over correctness of profits can be avoided.
- 3) Shareholders, who do not know about day-to-day administration of the company can judge the performance of management from audited accounts.
- 4) It helps management in detecting and preventing errors and frauds.
- 5) Management gets advice on financial affairs from the auditors.

Q:5) what are the Differences Between Accountancy and Auditing

Basis	Accountancy	Auditing
1. Meaning	It is the process of recording, classifying, summarising and interpreting all the financial transactions.	It is the process of examining books of accounts and reporting on the financial statements.
2. Objectives	Its main objective is to find out profit earned or loss suffered by a company and to show the financial position of the company for a particular period.	Its main objective is to examine the correctness of the accounts and financial statements and certify that whether the company exhibits a true and fair view of state of affairs of the concern.

Q: 3) Auditing as a vigil Mechanism.

Introduction: Section 177 of the companies Act, 2013 along with Rule 6 and 7 of Companies Rules. 2014 deals with 'Audit vigil mechanism. The requirements relating to audit committee was first introduced by the companies act 2000.

Vigil Mechanism is a measure of ensuring self-discipline, constituted with the object to strengthen and oversee management in public companies and to ensure that the board of directors discharge their functions effectively.

Establishment of Vigil Mechanism:

- Every listed company, companies which accept deposits from the public and companies which borrowed money from banks and public financial institutions in excess of Rs.50 crores shall establish a vigil mechanism for directors and employees to report genuine concerns in such manner as may be prescribed.
- Where the companies are not required to constitute an audit committee, the Board of

TEACHING USING ICT TOOLS DURING academic years 2018-2024 *Department of economics*

S.No	Name Of The Lecturer	Academic Years
1	N.Savitha Devi	2018-2019
2	P.Sudhakar	2019-2020
3	B.Annaiah	2020-2021
4.	B.Eswaraiah	2021-till to date

Below is a overview of key ICT tools commonly used for teaching purposes:

1. Hardware Tools

- **Computers/Laptops:** Essential for accessing educational software, creating content, and managing online classes.
- **Interactive Whiteboards/Smartboards:** Allow teachers to display and interact with digital content, making lessons engaging.
- **Tablets/iPads:** Used for mobile learning, apps, and interactive textbooks.
- **Projectors:** Display presentations, videos, or educational content to a larger audience.

- **Document Cameras/Visualizers:** Project physical documents or objects for real-time demonstration.

2. Software and Applications

- **Learning Management Systems (LMS):** Google Classroom, or Canvas manage assignments, quizzes, and student progress.
- **Video Conferencing Tools:** Zoom, Microsoft Teams, or Google Meet facilitate virtual classes and remote learning.
- **Presentation Software:** Microsoft PowerPoint, Google Slides, creating engaging lectures.
- **Educational Apps:** Tools like Kahoot!, Quizlet, or Duolingo gamify learning and reinforce concepts.
- **Content Creation Tools:** Canva for designing posters, Adobe Spark for videos, or Audacity for audio editing.

3. Online Resources and Platforms

- **E-Learning Platforms:** Khan Academy, Coursera, or EdX offer structured courses and resources.
- **YouTube and Educational Channels:** Used for tutorials, lectures, and demonstrations.
- **Digital Libraries:** NPDL

4. Collaboration and Communication Tools

- **Cloud Storage and Sharing:** Google Drive, Dropbox, or OneDrive for sharing resources and collaborative work.
- **Messaging Apps:** Slack or WhatsApp for quick communication with students or parents.

5. Assessment and Feedback Tools

- **Online Quizzing Tools:** Google Forms, or Quizizz for creating quizzes and polls.
- **Feedback Tools:** google forms

GOVERNMENT DEGREE COLLEGE

RAYACHOTY, YSR KADAPA DISTRICT, A.P.516269

(Accredited with C grade by NAAC)

DEPARTMENT OF POLITICAL SCIENCE UM

TEACHING USING ICT TOOLS & Online Classes

During Academic Years 2018-2024

Report on Online Classes during the Covid-19 Period

Lecturer: A. Khaja Vice Khirni

Institution: Government Degree College, Rayachoty

Subject: Political Science

1. Introduction

The sudden outbreak of the Covid-19 pandemic in early 2020 brought the world to a standstill. Educational institutions across India, including Government Degree College, Rayachoty, had to shift rapidly from traditional classroom teaching to online modes of instruction. This report presents an overview of the initiatives, challenges, and achievements regarding the Political Science classes conducted online by Lecturer A. Khaja Vice Khirni during this period.

2. Transition to Online Education

In compliance with the government's guidelines, the college adopted online platforms to continue the academic calendar without interruption.

Lecturer A. Khaja Vice Khirni promptly adapted to this new mode by:

- Using platforms like **Google Meet**, **Zoom**, and **WhatsApp Groups** for lectures and communication.
- Circulating study materials, e-books, and recorded video lectures for better accessibility.
- Encouraging students to participate actively despite the new format.

3. Teaching Methodology

To ensure the effectiveness of Political Science education:

- **Interactive sessions** were conducted to maintain student engagement.
- **Online assignments and quizzes** were given to monitor the students' understanding.
- **Doubt-clearing sessions** were organized weekly.
- **Presentations and webinars** on political theories and current events were arranged to broaden student perspectives.

4. Challenges Faced

While significant progress was made, certain challenges were encountered:

- **Internet Connectivity Issues:** Many students, especially from rural areas, struggled with poor network access.
- **Lack of Devices:** Some students lacked proper devices like smartphones or laptops to attend classes.
- **Adaptation Difficulty:** Both students and teachers initially found it challenging to adapt to the online mode.
- **Reduced Physical Interaction:** Lack of face-to-face engagement affected deeper discussions and debates, crucial in political science education.

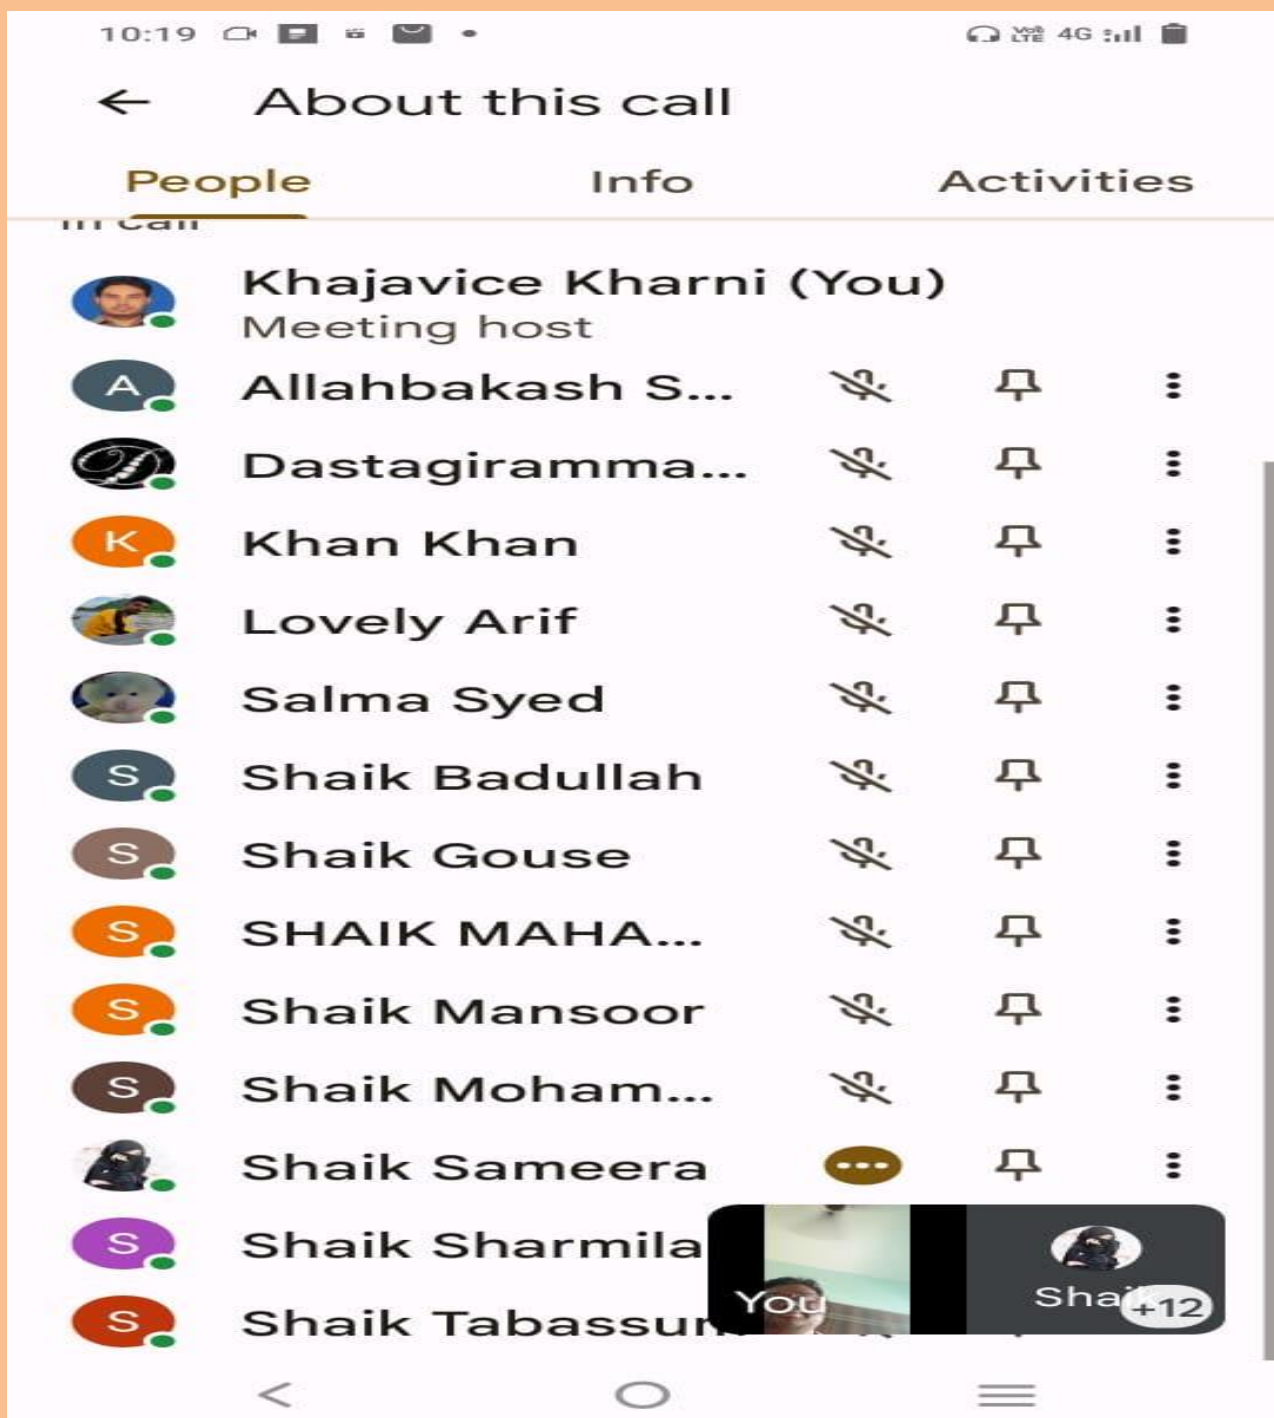

5. Achievements

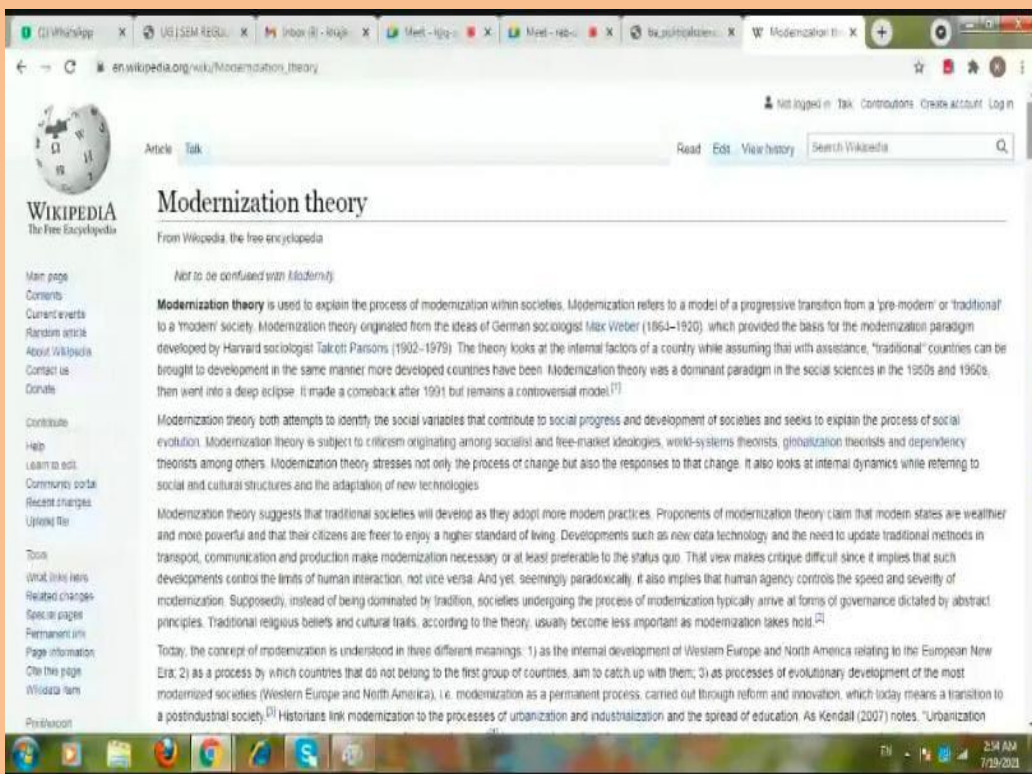

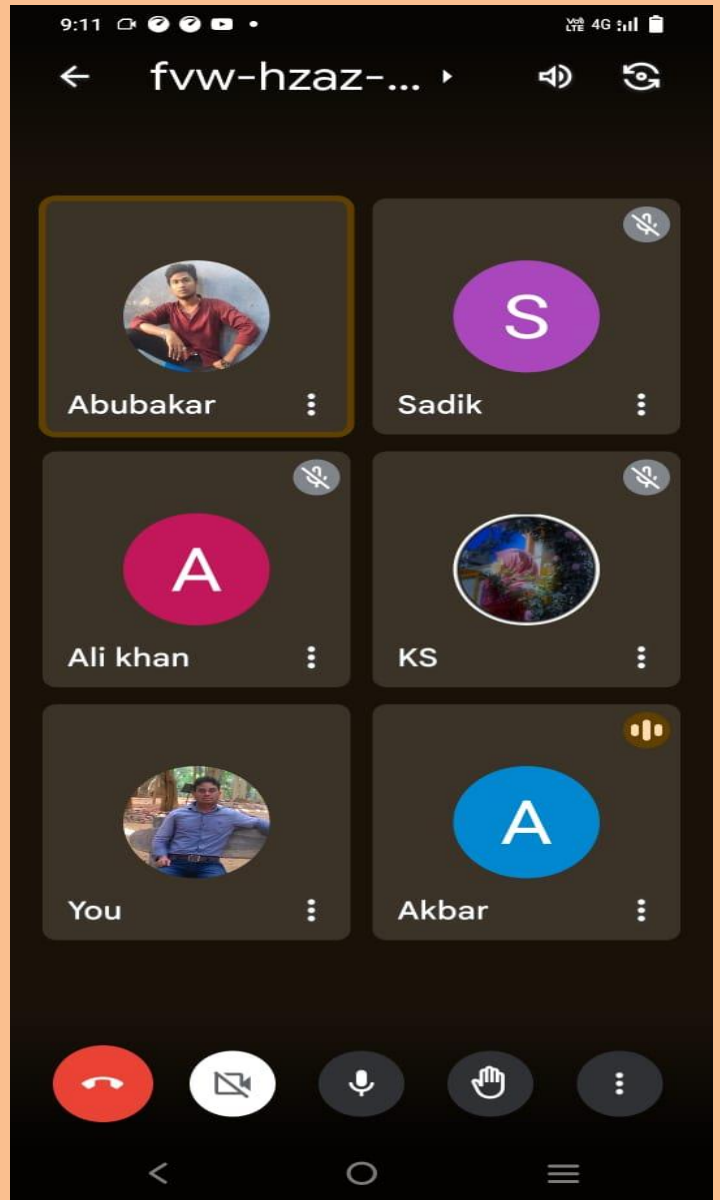

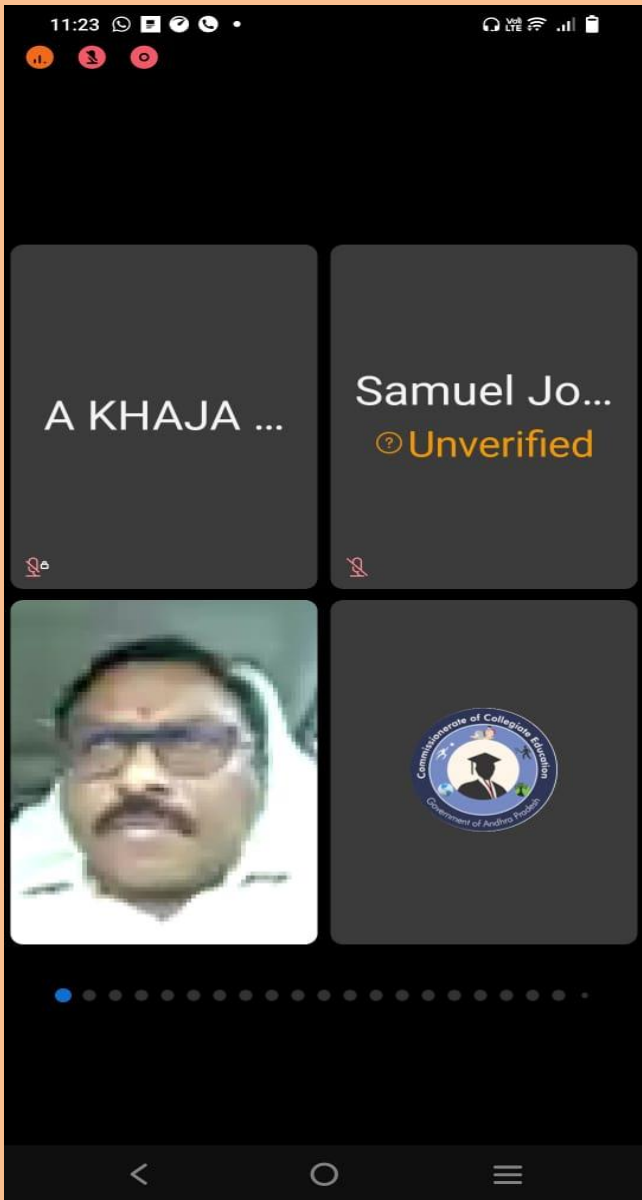

Despite the hurdles, several positive outcomes were observed:

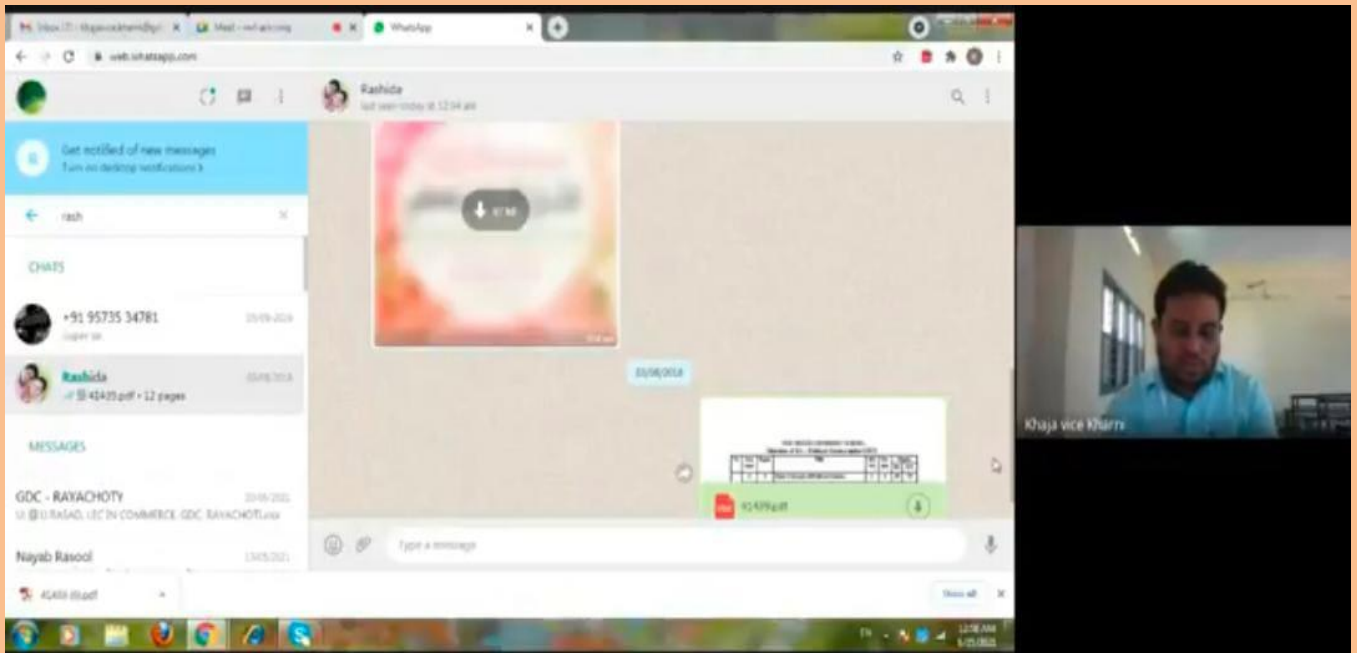

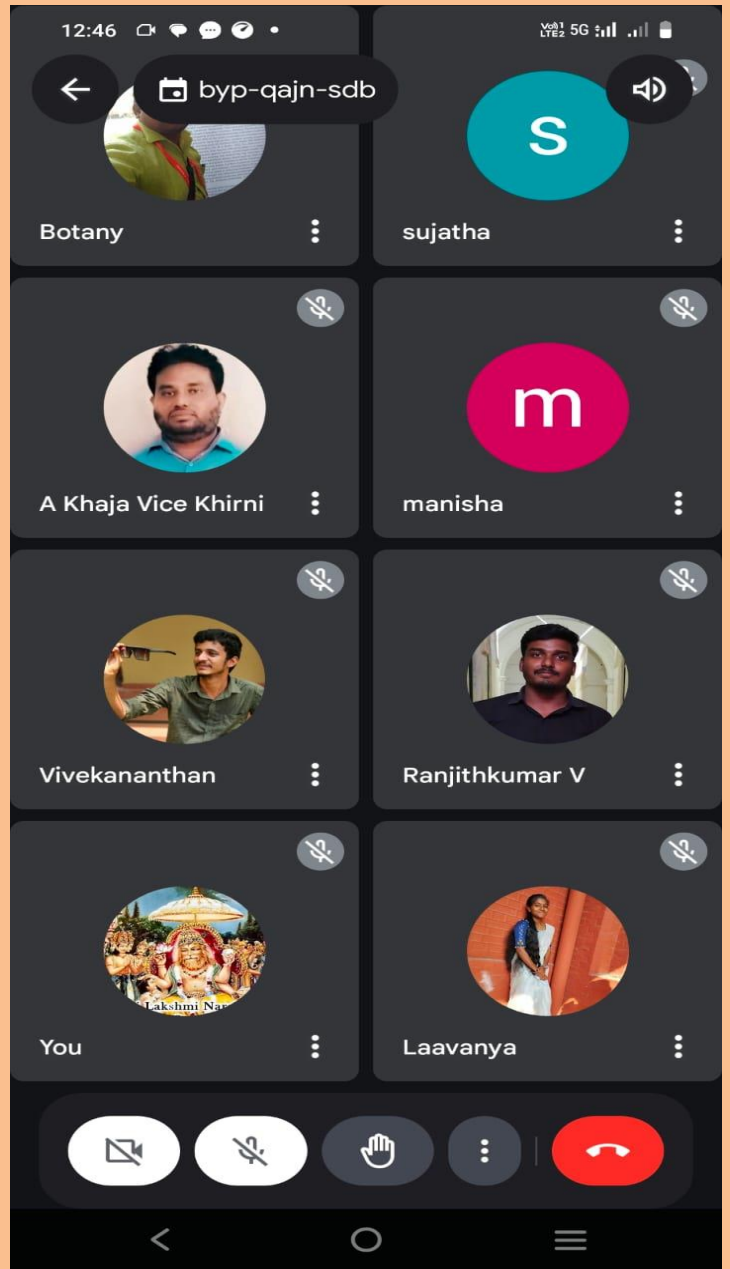

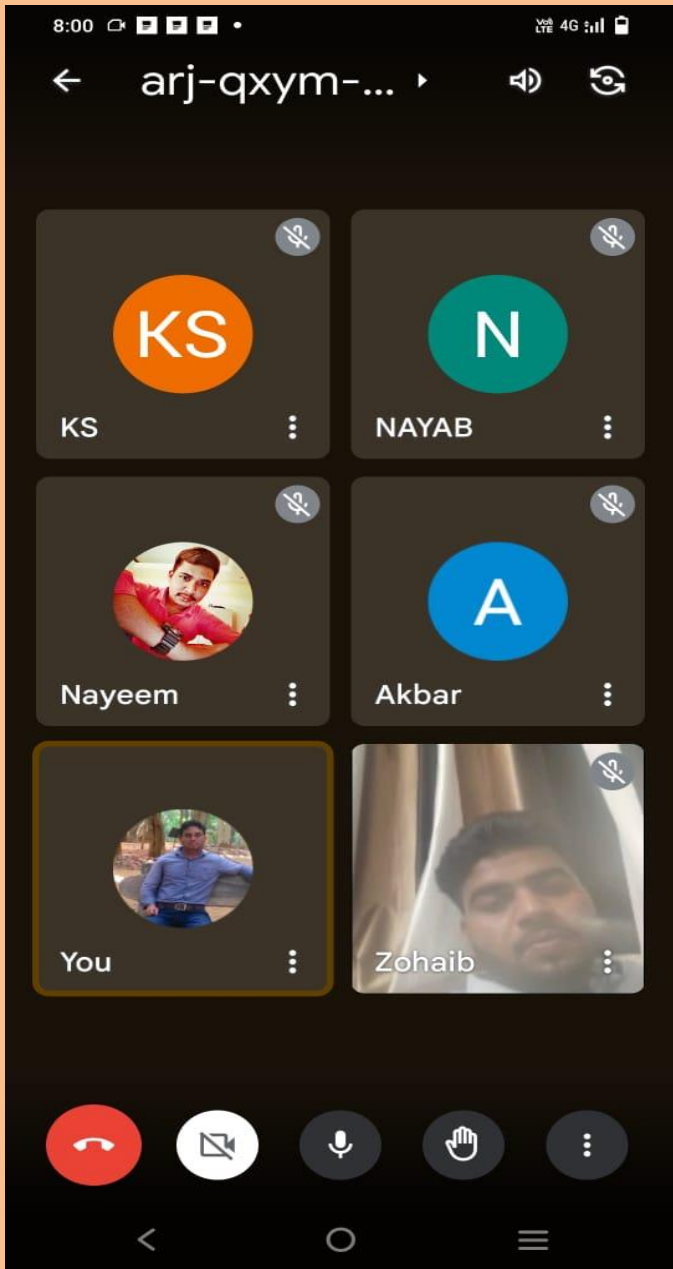

- A significant improvement in **digital literacy** among students.
- **Greater flexibility** in learning with recorded sessions available for revision.
- The ability to **connect with external experts** through online guest lectures.

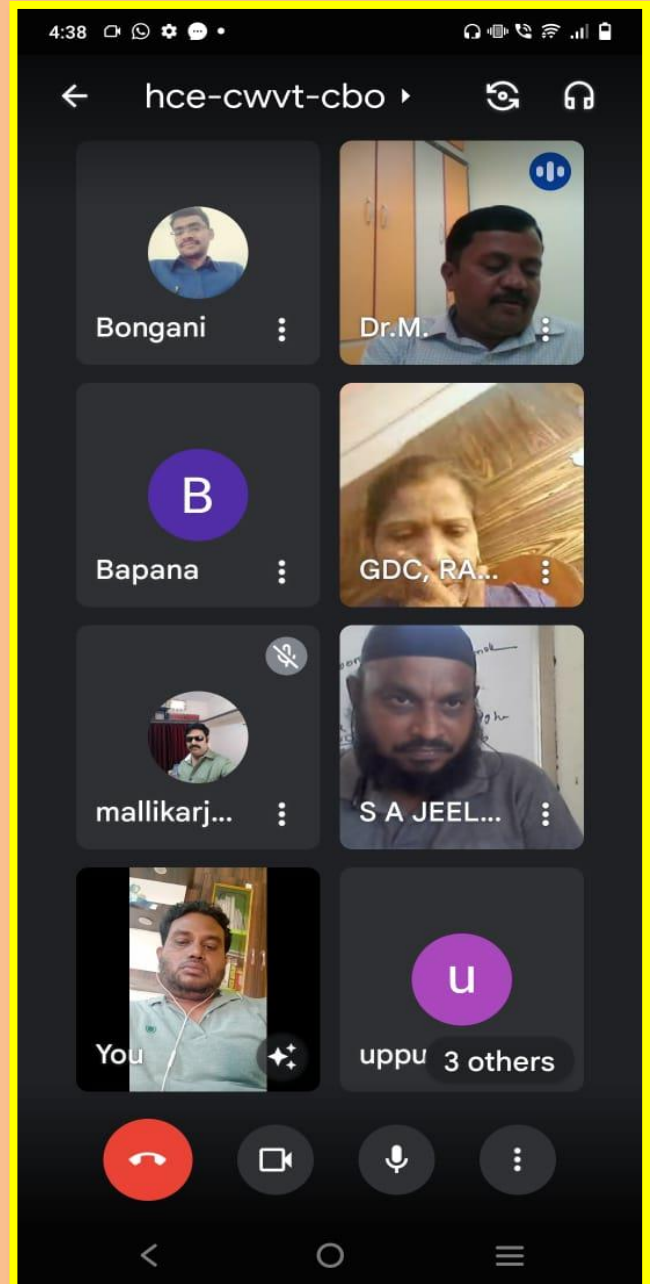

6. Conclusion

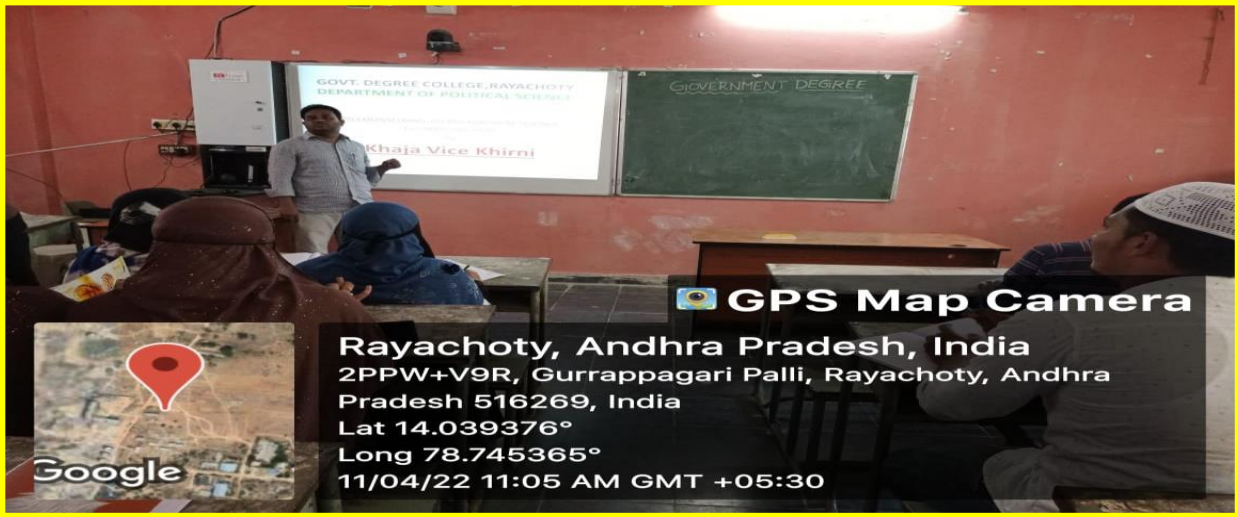

The Covid-19 pandemic posed unprecedented challenges, but it also offered opportunities to innovate in teaching and learning. Lecturer A. Khajavice Khirni's dedication ensured that Political Science students at Government Degree College, Rayachoty, continued their education effectively during this difficult period. The experience gained has paved the way for blended learning approaches in the future.

GOVERNMENT DEGREE COLLEGE
 RAYACHOTY, ANNAMAYYA DISTRICT
 Affiliated to Yogi Vemana University,
 Accredited by NAAC with "C" Grade

Amphibians
Amphibians live both in the water with gills, but develop lungs when they get the air.

Fish
Fish live in the water and have gills, scales, and fins.

Mammals
Mammals nurse their babies and have hair.

Arachnids
Arachnid bodies have an exoskeleton, two segments and eight legs.

**DEPARTMENT
 OF
 ZOOLOGY**

Reptiles
Reptiles have scaly skin and are cold-blooded.

Birds
Birds have feathers.

Crustaceans
Crustaceans have an exoskeleton, segmented body, and paired jointed legs.

Insects
Insect bodies have an exoskeleton, three segments and six legs.

ZOOLOGY
 (UG courses)

Name of the Lecturer : Dr. M. MUNIYA NAIK
 M.Sc. M.Phil., Ph.D., CSIR-NET.,

Name of the Department : ZOOLOGY

Academic Year : 2022-23

Use of ICT (Internet and Computer Technology)

ICT- lecture method by Dr.M.Muniya Naik on Ultra structure of Animal cell, dated 07-11-2022

ICT- lecture method by Dr.M.Muniya Naik on Polymorphism, dated 07-11-2022

ICT- lecture online method by Dr.M.Muniya Naik - syllabus explained, dated 28-10-2022

The screenshot shows a Zoom meeting interface. The main window displays a PDF document titled 'Zoology_VVU.pdf(n...)' with the following content:

Unit - V Embryology

- 5.1 Gametogenesis
- 5.2 Fertilization
- 5.3 Types of eggs
- 5.4 Types of cleavages
- 5.5 Development of Frog upto formation of primary germ layers
- 5.6 Types of Placenta

Co-curricular activities (Suggested)

- Chart on cardiac cycle, human lung, kidney/nephron structure etc.
- Working model of human / any mammalian heart.
- Chart of sarcomere/location of endocrine glands in human body
- Chart affixing of photos of people suffering from hormonal disorders
- Student study projects such as identification of incidence of hormonal disorders in the local primary health centre, studying the reasons thereof and measures to curb or any other as the

The Zoom interface on the right shows a 'You' video thumbnail, a 'VENKAT VENKAT' profile card, and a date indicator '28-10-2022'. The Windows taskbar at the bottom shows the time as 00:41:25 on 9/4/2022.

ICT- lecture method by Dr.M.Muniya Naik on Transduction, dated 18-01-2023

The photograph shows a classroom setting during a lecture. A male lecturer is standing at the front, presenting to a group of students seated at desks. A large projection screen displays a slide with a diagram. The room features a chalkboard, a world map, and various classroom supplies.

GENERAL CHARACTERS

- They are ectotherms/poikilotherms/cold blooded animals.
- Body is divided in to four parts.

- 1.Head
- 2.Neck
- 3.Trunk
- 4.Tail

Introduction

- Since Cambrian period
- All species in a single genus
- Now 65 species in 12 genera and 2 families .
- First discovered by GUILDING (గిల్డింగ్) in 1825---- Mollusc
- MOSLEY in 1874 ----Arthropod
- Later into separate minor phylum Onychophora.
- Described as missing link. Some authors say it as connecting link or living link
- Best example of discontinuous distribution .

Intensive system

- Birds are totally confined to houses either on ground/floor or on wire netting floor in cages or on slats

Advantages	Disadvantages
Minimum land is required	Birds welfare is affected
Farms can be located near market area	Since they are not exposed to outside
Day to day management is easier	Sun light and feed sources all the nutrients should be provided in balanced manner

00:12:35

Scientific management practices like breeding, feeding, medication

Chances for spreading of diseases are more

Fig (ii) Schematic diagram of double beam spectrophotometer

Operation/working : The selected beam of light falls on a F-shaped mirror called a beam splitter i.e., the radiation splits into two beams of equal intensity, one of which passes through the reference cell containing pure solvent and other one simultaneously passes through the sample solution cell.

The transmitted light from the two cells go to the photoelectric detector alternatively and the difference in the absorbance by the solvent and the sample solution is measured electronically with high accuracy.

2. State and explain Lambert's-Beer's law of absorption of light ?

(ANU July 2014, Mar 2014, July 2013, 2012, 2011, Mar 2013; RU July 2014, Mar 2014, June 2012)

A. Lambert's Law :

When a monochromatic light allowed to pass through a transparent medium, the rate of decrease in intensity with the thickness of the medium is proportional to the intensity of the light.

$$\text{i.e., } \frac{-dI}{dI} \propto I \Rightarrow \frac{-dI}{I} = KdI$$

Minus sign indicates that the power decreases with absorption.

Here, I is the intensity of incident light.

d is the thickness of the medium.

K is proportionality factor

$$\frac{-dI}{I} = KdI \Rightarrow \frac{-dI}{I} = -KdI$$
